## PRACTICE LEARNING OUTCOMES IN NON-CLIENT FACING PLACEMENTS

### SUMMARY

This document is intended as an aide-memoire for nursing students, practice supervisors and practice assessors to highlight relevant competencies for students to work towards achieving during a non-client facing placement such as deployment to Occupational Health settings, NHS direct and 101 help lines, supporting chronic condition teams with proactive calls to check on patients/service users, assisting Professional Development Nurses with training and development, assisting in screening and test centres. The list is not exhaustive and depending on the nature of the placement and learning opportunities available to students there may be other generic practice learning outcomes and some field specific practice learning outcomes that may be able to be achieved.

Students would still have their practice learning outcomes signed in the usual way using their ongoing record of achievement of competence.

## **Practice Learning Outcomes: Non-Client Facing Placements**

Listed below are some of the Generic Practice Learning Outcomes that may be able to be achieved during non-client facing placements.

Please note the list is not exhaustive and depending on the nature of the placement and learning opportunities available to students there may be other generic practice learning outcomes, and some field specific practice learning outcomes that may be able to be achieved.

G = Generic Competency

Year 2 – Progression Point 2

Professional Values:

G1

Practice learning outcome 1: Practices in accordance with The Code (NMC 2018), and other legal frameworks.

G4

Practice learning outcome 4: Demonstrates an understanding of the underlying principles of clinical risk assessment and assessment tools.
