10.	Description of the training post	<p>The Oral and Maxillofacial department at Morrison Hospital is one of the largest and busiest in the United Kingdom serving a population of 1.25 million.</p> <p>The Trainee will undertake a range of Oral and Maxillofacial and Orthodontic procedures. Highlighting the multi-disciplinary approach to treatment and the co-ordinated work of both specialties. Oral and Maxillofacial Surgery is involved also with craniomaxillofacial trauma, head & neck oncology and salivary gland surgery.</p> <p>The Oral and Maxillofacial department is an integrated department based at Morrison Hospital and also serving Princess of Wales Hospital in Bridgend. All emergency and inpatient elective work take place at the Morrison Hospital. All other work is undertaken on either site.</p>

		<p>Morrison Hospital has been designated by the Welsh Assembly Government as the centre for cleft care in South Wales.</p> <p>The Unit has an international reputation in the reconstruction of patients with congenital and acquired orofacial defects and many challenging multi-disciplinary cases are undertaken.</p> <p>There is a large maxillofacial laboratory on site serving all three specialties. The team includes maxillofacial technicians and prosthetists, orthodontic and restorative technicians and full-time 3D scientist. A full range of services is provided including facial prostheses, implants and planning for orthognathic, reconstructive and trauma service.</p> <p>The Maxillofacial Unit, Cleft Unit and ENT share a dedicated outpatient facility with several clinical rooms, treatment rooms and multidisciplinary meeting rooms in the new outpatient facility at Morrison Hospital. We also have a dedicated Head & Neck ward for all our emergency and elective patients. There is free access to large children's ward for paediatric patients. Daycase patients have access to Theatre Admissions Unit for same day discharge. There is a dedicated adult and paediatric theatre for elective operating throughout the week and access to CEPOD theatre for emergency work.</p> <p>The Oral and Maxillofacial Surgery clinical team currently includes 7 consultants, 3 specialist trainees, 4 specialty doctors and 9 dental and medical foundation and core trainees.</p>
11.	Primary Care training element	No primary care commitment
12.	Pattern of working, including any on-call commitment	9-5 daytime working. There is no out of hours on-call commitment.
13.	Educational programme summary and library facilities	<p>The DCT will have the opportunity to attend outpatient clinics and treatment sessions. Experience will be gained working closely with medical and surgical colleagues in all clinical areas. The DCT will attend theatre sessions and encouraged to develop their surgical skills appropriate for their level. The DCT will be encouraged to participate in clinical audit and there are opportunities to pursue research.</p> <p>In addition there are structured departmental educational activities: weekly journal club, monthly clinical governance days, and monthly teaching sessions on core topics. Trainees are encouraged and supported to actively participate in these activities.</p> <p>There are excellent library facilities both at Morrison Hospital and Princess of Wales Hospital.</p>
