F1 Programmes Descriptions

Please note that all descriptions are for illustrative purposes only.

All aspects of the programmes (including training sites, placements, banding and on-call rotas) can be subject to change at short notice.

Rotation: FP/001	Cardiff & Vale UHB	Academic Programme
University Hospital of Wales	**Cardiology**	**No Banding (5% Supplement)**
The F1 will take part in the admitting and assessment of cardiology patients with a wide spectrum of acute presentations including STEMI, acute pulmonary oedema, cardiogenic shock, atrial fibrillation, and other arrhythmias. This post will give the trainee opportunities to perform practical procedures including elective DC cardioversion list, central venous and arterial cannula.		
Educational Meetings:	Weekly ECG Teaching and Hospital Grand Round Monthly F1 Teaching	
University Hospital of Wales	**Trauma & Orthopaedic Surgery / Orthogeriatrics**	**Band 2B**
The post is designed to provide a balanced portfolio of experience looking after frail older patients with injuries/fractures as their care moves across a number of disciplines and specialties. Clinical duties include Acute orthopaedic intake and trauma/orthopaedic ward work for patients in whom a fracture is just one component of medical/psychosocial frailty.		
Educational Meetings:	Daily Multidisciplinary X-Ray PTWR Weekly Trauma Teaching, Gerontology Teaching and UHW Grand Round Monthly F1 Teaching	
University Hospital of Wales	**Intensive Care Medicine**	**Band 1B**
The F1 doctor will form a part of the cohort of junior doctors providing care for high risk postoperative patients on ICU. The adult ICU admits around 1800 new critically ill patients per year and allows exposure to a great variety of acute medical and surgical pathologies.		
Educational Meetings:	Daily Teaching/Handover Weekly ITU Simulation training Monthly F1 Teaching	
University Hospital of Wales	**Academic Research/Teaching Offering**	
Flexible dedicated academic time of 1 day per week is available to pursue a research or teaching interest. All F1s are expected to present at local and national meetings, and most trainees are successful in being published in peer reviewed journals. Please note that SDT is included within the academic time.		

Rotation: FP/002	**Cardiff & Vale UHB**	**Academic Programme**
University Hospital of Wales	**Paediatrics**	**Band 2B**
The Children's Hospital F1 post provides an excellent opportunity to gain clinical and academic experience of Paediatrics. F1s will be offered an opportunity to take part in paediatric research based in our Children and Young Adults' Research Unit.		
Educational Meetings:	Weekly Teaching sessions on Radiology & Microbiology, and Paediatrics Weekly Sim training, Journal Club and Case Presentation Monthly F1 Teaching	
University Hospital of Wales	**Intensive Care Medicine / Post-Anaesthetic Care Unit**	**Band 1B**
The F1 doctor will form a part of the cohort of junior doctors providing care for high-risk postoperative patients on ICU. The adult ICU admits around 1800 new critically ill patients per year and allows exposure to a great variety of acute medical and surgical pathologies.		
Educational Meetings:	Daily Teaching/Handover Weekly ITU Simulation training Monthly F1 Teaching	
University Hospital Llandough	**Respiratory Medicine / Cystic Fibrosis**	Banding to be confirmed
The Adult CF part of this rotation provides insight into the workings of a full multidisciplinary team at the All-Wales Adult CF centre. This post has a significant clinical input but provides training opportunities in current research and audit projects. *From 2022 there are plans to include a medical on-call commitment, however this has not yet been confirmed.*		
Educational Meetings:	Weekly Teaching sessions on Medicine, Radiology and Cystic Fibrosis Weekly Journal Club and Grand Round Monthly F1 Teaching	
University Hospital of Wales **University Hospital Llandough**	**Academic Research/Teaching Offering**	
Flexible dedicated academic time of 1 day per week is available to pursue a research or teaching interest. All F1s are expected to present at local and national meetings, and most trainees are successful in being published in peer reviewed journals. Please note that SDT is included within the academic time.		

Rotation: FP/003	Swansea Bay UHB	Academic Programme
Morriston Hospital	**General Surgery / Hepato-Pancreatico-Biliary Surgery**	Banding to be confirmed
The Pancreatobiliary unit is the tertiary services centre for Wales. The unit is involved in various national and international clinical trials and research projects. During this post you will join a large team and will gain experience in managing general and Pancreatobiliary surgical patients in a well supported and supervised environment. You will also participate in the general surgery on call rota to get exposure to acutely ill surgical patients. There is an opportunity to take part in the research group based at institute of life science in Swansea University and to be involved in clinical research within the Pancreatobiliary unit.		
Educational Meetings:		
Morriston Hospital	**Plastic Surgery**	Banding to be confirmed
The trainee will join the largest and one of the busiest Plastic & Reconstructive Surgery Research Group in the UK. The trainee will participate in daily ward rounds, have exposure to outpatient clinic work and acute care and work with the team to gain an understanding of the surgical, physical and social aspects involved in providing holistic care for the broad range of plastic surgery patients (from acute burns, cancer, hand injuries and major trauma through to aesthetic surgery) The trainee will participate in the acute take and be exposed to a wide variety of emergency presentations in a well-supported environment.		
Educational Meetings:		
Morriston Hospital	**General Internal Medicine / Endocrinology & Diabetes**	Banding to be confirmed
During this post in general medicine, the F1 will be based on the Acute Medical Assessment Unit, and will be actively involved in the Acute care of Medical patients and a key member of the Acute Medicine multidisciplinary team. The F1 will participate in daily board and clinical rounds and work with the AMAU team to gain an understanding of the physical, psychological, functional and social aspects involved in the provision of Acute Medical care. They will also participate in the unselected acute take and be exposed to a wide variety of emergency presentations in a supported environment with on-site specialty services including renal, neurology, stroke medicine and cardiology. The F1 will be encouraged to present at speciality and grand round meetings and contribute to audit, quality improvement projects and the teaching of medical students on placement.		
Educational Meetings:		
Morriston Hospital	**Academic Research/Teaching Offering**	
Flexible, protected academic time of 1- 2 days per week is available for academic activities. There are teaching opportunities at the Swansea Graduate Entry Medicine Programme, and F1s may choose which specialty they would like to pursue basic clinical/laboratory/service delivery based research in. F1s may also undertake Medical Education qualifications (self funded), and will be supported to publish their findings and network with academic peers.		

Rotation: FP/004	Betsi Cadwaladr UHB	Academic Programme
Wrexham Maelor Hospital	**Urology**	Banding to be confirmed
The F1 will attend consultant led ward rounds, to allow them to assess elective and emergency admissions, and all post-operative patients. They will be supervised in dealing with common urological post-operative complications, including recognition, assessment, and immediate management of uro-sepsis. The F1 will also attend regular urology outpatient clinics to learn how to assess and manage patients with chronic conditions (BPH/kidney stones). The outpatient clinic will allow ample opportunity to recruit patients to the basic science research element of the post. There is also the opportunity to integrated further into the wider Urology team through attendance at nuse led clinics, continence clinics and/or counselling clinics for newly diagnosed prostate cancer patients.		
Educational Meetings:		
Wrexham Maelor Hospital	**General Surgery / Breast Surgery**	Banding to be confirmed
The 8am to 5pm days consist of ward rounds, attending clinics, assisting in theatre or using spare time for self-directed study. The F1 may be included on the arrival's rota, which requires undertaking blood tests and writing drug charts for elective surgical admissions. The on-call commitment includes long days (8am to 6pm), evenings (4.30pm to 11pm) and two weekends during the 4-month placement, but no night shifts. During on-calls, the F1 is responsible for clerking GP admissions to the Surgical Assessment Unit and carrying out ward jobs that have been handed over.		
Educational Meetings:		
Wrexham Maelor Hospital	**General Internal Medicine / Gastroenterology & Hepatology**	Banding to be confirmed
The 9am to 5pm day usually consists of a consultant/registrar-led ward round and general ward work. Most teams have their own wards. All medicine posts include an on-call commitment, usually on the general medical rota, which will include long days (1:6), two weekends and a block of nights (7 nights over 2 weeks) during the 4 month placement. During on-calls, the F1 will be responsible for clerking new admissions to the Medical Assessment Unit/A&E or ward work (on weekends).		
Educational Meetings:		
Wrexham Maelor Hospital	**Academic Research Offering**	
The majority of the week will involve basic science research investigating the haemostatic and inflammatory response after urological surgery (and correlating this with clinical outcomes). The F1 will be fully integrated into our active (fully funded) North Wales Clinical Research Centre and will become competent in basic haematological testing, clinical chemistry analysis, ELISA, PCR, western blotting and flow cytometry. There is also the potential to fund a one year MPhil at Glyndwr University, to publish findings in peer reviewed journals and to attend national/international conferences. There is additional funding available from the Urology Research and Training Fund for additional courses and conferences.		

Rotation: FP/005	**Aneurin Bevan UHB**	
The Grange University Hospital	**Anaesthetics / Intensive Care Medicine**	Banding to be confirmed
Details coming soon...		
Educational Meetings:		
The Grange University Hospital **Royal Gwent Hospital**	**General Surgery / Sub-specialty to be confirmed**	**Band 1A**
Emergency and elective general surgery (including GI) across two sites. All emergency work and majority of the F1 placement will be based in Grange University Hospital, with some weeks (4 out of 20) based in the Royal Gwent Hospital to gain experience of elective work and peri-operative care. GUH work will include well supervised and supported assessment and initial management of emergency patients on the Surgical Assessment Unit and ongoing ward-based care of emergency patients, within one of the upper GI or colorectal teams. RGW weeks will comprise peri-operative care of elective patients and those "stepped-down" from GUH. Experience will include assessment and management of acutely unwell and multi-morbid patients, peri-operative and end-of-life care. The on-call commitment is a 20-week rolling rota comprising of 1:10 nights (either GUH or RGW), 1:10 weekend days (GUH), 3 weeks of daytime shifts (RGW) and remainder at GUH.		
Educational Meetings:	Weekly F1 Teaching	
Nevill Hall Hospital	**Geriatric Medicine**	Banding to be confirmed
Details coming soon...		
Educational Meetings:		

Rotation: FP/006	**Hywel Dda UHB**	
Glangwili General Hospital **Prince Philip Hospital**	**Urology**	**Band 1B**
F1s will participate in Ward Rounds and presentation of new admissions, seeing acute Urological admissions and review scans, with opportunity learn about investigations and treatment of Urological cases. They will perform male and female catheterisations on the ward and attend Urology CNS led clinics, insert cannula and perform blood cultures and learn how to look after emergency admissions under supervision. F1s will also clerk acute and elective cases, provide discharge summary letters and undertake ward work. The on call commitment is 1:6.		
Educational Meetings:	Daily Ward Rounds Weekly F1 Teaching, MDT Discussions Whole Hospital Audit Meetings	
Prince Philip Hospital	**General Internal Medicine / Geriatric Medicine**	**Band 1B**
The F1 is generally ward based, providing medical care of inpatients. They will build on their knowledge of General Medicine and Gastroenterology conditions, assess problems and manage acutely unwell patients including liver complications / failure, GI bleeding and assisting with practical procedures. Their duties include clerking, ordering investigations, checking progress of patients, chasing reports, maintain patient's medical record and drug charts. The on call commitment is 1:20.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Grand Rounds and Geriatrics Meetings	
Glangwili General Hospital	**General Internal Medicine / Gastroenterology**	**Band 1B**
The F1 will have exposure to and be involved in the active management of a wide range of luminal and hepatology related conditions that are seen as an in-patient including complex inflammatory bowel disease, Decompensated liver disease, Gastrointestinal malignancies, and advanced nutritional related pathologies. They will benefit from regular consultant ward rounds and bed side teaching, and are encouraged to seek out educational opportunities (e.g. attending outpatients). Specialist clinics run regularly including complex IBD, Liver disease comprising of viral hepatitis and post liver transplant follow up alongside general gastroenterology referrals. There is also an opportunity to attend the endoscopy department to observe both Upper and lower Gastrointestinal endoscopy, and to complete the attachment being competent in performing abdominal paracentesis. The on-call commitment (1:22) is on the general medical rota, where the F1 will see patients admitted to the Acute Medical Assessment Unit as part of the Medical Emergency Team as well as attending acute stroke thrombolysis calls.

Rotation: FP/012	**Cwm Taf Morgannwg UHB**	
Princess of Wales Hospital	**General Internal Medicine / Geriatric Medicine**	Banding to be confirmed
The Care of the Elderly department works closely with the department of medicine. There are 6 consultants working across dementia, frailty, community, Orthogeriatrics and movement disorders, with all posts covering General Internal Medicine. The F1 forms part of a multidisciplinary team covering an 18 bedded COTE ward. The ward has responsibility for complex elderly patients with physical problems, dementia and/or delirium with some psychiatric illness. A holistic multidisciplinary approach is key to the patient's care. There is additional experience assessing outlying patients referred from Orthopaedics and Surgery. It is expected that the F1 would attend the weekly teaching where possible. They will also be encouraged to teach and undertake a Quality Improvement Project, and wherever possible, results can be promoted or presented. This post has received excellent feedback from individuals and the GMC Survey. The acute on call involves both surgery and medicine experience.		
Educational Meetings:	Weekly Grand Rounds, F1 Teaching and Departmental Meetings	
Princess of Wales Hospital	**General Surgery / Breast Surgery**	Banding to be confirmed
Details coming soon...		
Educational Meetings:		
Princess of Wales Hospital	**Palliative Medicine**	Banding to be confirmed
The F1 post is primarily based on an 8 bedded specialty Palliative Care IPU, managing symptoms and complex psychosocial problems, as well as end of life care, in the context of patients with a life limiting illness (both malignant and non-malignant disease). The F1 will be involved in daily ward rounds, twice weekly consultant ward rounds and weekly MDTs to discuss discharge planning. They will be required to clerk admissions, arrange investigations and chase up results, as well as supporting families and patients. During most weeks, there will be an opportunity to join the hospital liaison team and review palliative care patients in the acute setting, and complete home visits with the community palliative care team. QI projects are encouraged and supported, and there are regularly medical students on the ward to provide opportunities for teaching. They will participate in the medical on call throughout the placement.

Rotation: FP/015	**Hywel Dda UHB**	
Prince Philip Hospital	**General Internal Medicine / Gastroenterology**	**Band 1B**
The F1 will have exposure to and be involved in the active management of a wide range of luminal and hepatology related conditions that are seen as an in-patient, including complex inflammatory bowel disease, Decompensated liver disease, Gastrointestinal malignancies and advanced nutritional related pathologies. They will benefit from regular consultant ward rounds and bed side teaching, and are encouraged to seek out educational opportunities (e.g. attending outpatients). Specialist clinics run regularly including complex IBD, Liver disease comprising of viral hepatitis and post liver transplant follow up alongside general gastroenterology referrals. There is also an opportunity to attend the endoscopy department to observe both Upper and lower Gastrointestinal endoscopy, and to complete the attachment being competent in performing abdominal paracentesis. The on-call commitment (1:20) is on the general medical rota, where the F1 will see patients admitted to the Acute Medical Assessment Unit as part of the Medical Emergency Team as well as attending acute stroke thrombolysis calls.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly F1 Teaching and Medicine Meetings Whole Hospital Audit Meetings	
Prince Philip Hospital	**Rheumatology**	**Band 1B**
The F1 will see a full range of rheumatological disorders through attending 4 outpatient clinics per week, the rheumatology day unit and seeing ward referrals with one of the 3 rheumatology consultants. There will be the opportunity to develop specialty specific procedural skills such as therapeutic intramuscular, intra-articular injections, and soft tissue injections, to become familiar with drug counselling and monitoring, pre-screening investigations for DMARDs and biologic therapies, and to develop knowledge on chronic disease management. The F1 will be responsible for checking blood results from clinics and raising any unexpected abnormalities with a clinician. There will be time for Quality Improvement Projects or case studies to be completed. There is an on-call medical rota (1:7).		
Educational Meetings:	Weekly Journal Club, F1 Teaching and Grand Rounds Bi-Monthly Hospital Audit Meetings	
Glangwili General Hospital	**Emergency Medicine**	**Band 1A**
The F1 role includes the assessment and management of both minor and major presentations to the Emergency Unit under on-site Clinical Supervision. Trainees will be involved in RCEM audits, care of children and Cognitive Assessment in the Elderly. The on-call commitment is 1:3, and bleep free departmental teaching every week.		
Educational Meetings:	Weekly F1 Teaching and Emergency Department Teaching Monthly Whole Hospital Audits	

Rotation: FP/016	**Hywel Dda UHB**	
Prince Philip Hospital	**General Internal Medicine / Endocrinology & Diabetes**	**Band 1B**
The F1 day starts with a Ward Round comprising all team members, and ward work, chasing results and reviewing patients. The F1 is also responsible for handing over urgent test results over to the evening team. There is opportunity to undertake Audit and Quality Improvement Projects and to attend Diabetes and Endocrine clinics. The on-call commitment is 1:20.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly Medicine Meetings, F1 Teaching and Grand Rounds Whole Hospital Audit Meetings	
Prince Philip Hospital **Glangwili General Hospital**	**General Surgery / Breast Surgery**	**Band 1B**
The F1 role, working in the breast unit, will comprise of patients being admitted for elective breast surgery. Most procedures will be for diagnosed Breast Cancer patients with a minority being related to Cosmesis. The F1 will be expected to be part of the Ward Round at 8am. They will be involved in pre-assessing patients prior to the surgical procedure, attend theatre to assist in the basic resectional breast surgical operations, and attend clinics in which new patients with a breast problem are assessed. They will present in at least 2 journal clubs on a Tuesday morning and complete one audit during the placement. There is a surgical on-call commitment (1:7) at Glangwili General Hospital as part of this rotation.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly Medicine Meetings, F1 Teaching and Grand Rounds Whole Hospital Audit Meetings	
Prince Philip Hospital	**General Internal Medicine / Geriatric Medicine**	**Band 1B**
The F1 will be caring for in-patients under the Care of the Elderly team on our 2 wards (ward 1 and ward 9) plus any outliers from on-calls. These patients are under the care of 2 Consultants. There are some opportunities for clinic attendance as well as experiencing community care home project work depending on in-patient workload.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly Medicine Meetings, F1 Teaching and Grand Rounds Whole Hospital Audit Meetings	

Rotation: FP/017	**Hywel Dda UHB**	
Prince Philip Hospital	**General Internal Medicine / Cardiology**	**Band 1B**
The patient mix is predominantly cardiology and general internal medicine, and the team looks after 24 patients on the general cardiology ward and involved in the care of 4 patients on the Critical Care Unit. F1s will attend 4 consultant-led and 1 middle grade ward rounds per week, and currently F1s also attend a daily ward round in the ACS treat and repatriate bay catering for acute cardiac patients awaiting invasive management at Morriston Hospital. The F1 will carry out daily tasks such as core bedside procedures, completing electronic medication take homes and discharge summaries, and will be encouraged to present cases at the two teaching rounds per week. They are also encouraged to attend cardiology clinics and non-invasive/invasive cardiac investigation lists. The on-call commitment is 1:20, which will involve clerking patients through the acute medical admissions unit for a largely unselected medical take and providing general ward cover, with supervision from a middle grade and consultant.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly Medicine Meetings, F1 Teaching, Departmental Teaching and Grand Rounds, and Whole Hospital Audit Meetings	
Prince Philip Hospital	**General Internal Medicine / Respiratory Medicine**	**Band 1B**
The Ward 3 patients are split between the 3 Respiratory Consultants, but cared for by the whole team. The F1 will be involved in managing patients with respiratory failure, including non-invasive ventilation on the ward, and patients with pleural disease including a variety of chest drains. Competency training in NIV is led by our senior respiratory nurse specialist and pleural procedures learned in the postgraduate skills lab led by registrars and teaching fellows. When time permits, F1s also attend pleural clinics to learn pleural aspiration and chest drain insertion skills.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly Medicine Meetings, F1 Teaching, Departmental Teaching and Grand Rounds, and Whole Hospital Audit Meetings	
Prince Philip Hospital **Glangwili General Hospital**	**Anaesthetics / Intensive Care Medicine**	**Band 1B**
The F1 will be exposed to day-to-day services in the Intensive Theary Unit, including admission, management of critically ill patients and exposure to various types of ventilation and invasive monitors. They will also rotate through main theatres to be exposed to Anaesthetic Management of elective patients from Orthopaedics, General Surgery and Breast Surgery, and learn the airway management, induction and emergence of anaesthesia and the different types of pain management in recovery. There is a surgical on-call commitment (1:7) at Glangwili General Hospital as part of this rotation.		
Educational Meetings:	Daily Theatre Teaching and ITU Teaching Weekly Medicine Meetings, F1 Teaching and Grand Rounds Whole Hospital Audit Meetings	

Rotation: FP/018	**Hywel Dda UHB**	
Prince Philip Hospital	**General Internal Medicine / Rehabilitation Medicine**	**Band 1B**
F1s will treat mainly unselected emergency medical intake with continuing care of the majority of patients seen, and will be responsible for acute medical patients with 1:3 cover of emergency stroke patients cover of rehabilitation ward. F1s will develop skills in history taking, examination, bedside practical procedures, and management of complexity, Stroke and special interest of movement disorders. The on-call commitment is 1:20.		
Educational Meetings:	Daily Consultant/Junior Doctors Ward Rounds Weekly Medicine Meetings, F1 Teaching, Departmental Teaching and Grand Rounds Whole Hospital Audit Meetings	
Glangwili General Hospital	**Haematology / Clinical Oncology**	**Band 1B**
The F1 is part of a team of two consultant haematologists, an associate specialist, a staff grade doctor, an F2 and a haematology specialist nurse. Consultant led ward rounds occur every Monday and Thursday. The team also has responsibility for day case patients attending for chemotherapy, blood and blood product transfusions in the chemotherapy unit and day hospital. The on-call commitment is 1:22.		
Educational Meetings:	Daily Consultant Ward Rounds and Day Hospital Weekly Medical Meetings and F1 Teaching Whole Hospital Audit Meetings	
Glangwili General Hospital	**Emergency Medicine**	**Band 1A**
The assessment and management of both minor and major presentations to the Emergency Unit under on-site Clinical Supervision. Trainees will be involved in RCEM audits, care of children and Cognitive Assessment in the Elderly. The on-call commitment is 1:3.		
Educational Meetings:	Weekly F1 Teaching and Emergency Department Teaching Whole Hospital Audit Meetings	

Rotation: FP/019	**Hywel Dda UHB**	
Glangwili General Hospital	**General Internal Medicine / Endocrinology & Diabetes**	**Band 1B**
The Team comprises of 3 Consultants, 1 SpR, 1 IMT, 1 F2, 1 F1, 1 Clinical Fellow and 4 Diabetes Specialist Nurses . The F1 duties include management of inpatients, attendance at Consultant ward rounds (2-3 per week) and daily ward rounds, completion of discharge summaries, teaching medical students as directed, and attendance at clinical meetings and outpatient clinics. They will also be expected to present clinical cases and contribute to the journal club discussion, and encouraged to undertake a Quality Improvement Project or audit. Experience is gained on the ward, through outpatient clinics and in attending the daily consultant post-take ward rounds on the admission wards. There is also the opportunity to work more closely with the multidisplinery team members (e.g. dietitians and podiatrists). The F1 is expected to be flexible in their working arrangements and may need to provide cross-cover for other medical teams. The on-call commitment is 1:11.		
Educational Meetings:	Daily Ward Rounds Weekly Medicine Meetings and F1 Teaching	
Glangwili General Hospital **Prince Philip Hospital**	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 2B**
Elective and emergency management of surgical patients (general/upper GI/colorectal), with particular emphasis on minimal access surgery and endoscopic intervention. The F1 will have a rounded experience across the breadth of the specialty, with experience provided in assessment and management of emergency and critically ill surgical patients. The F1 is also encouraged to participate in Service Improvement Projects. There are day and night on calls with a commitment of 1:11. *Due to Covid pathways, there may be an ongoing requirement for F1s to undertake duties at PPH.*		
Educational Meetings:	Twice weekly MDT meetings Weekly Surgical Teaching, F1 Teaching and Departmental Teaching Monthly Departmental M+Ms	
Glangwili General Hospital	**General Internal Medicine / Cardiology**	**Band 1B**
The Cardiology team is made up of an F2, Clinical Fellow/IMT/ANP (2 posts) an SPR, a specialty doctor and F1, and is led by 4 cardiologists who provide daily input to the wards and Critical Care Unit. The team care for 6 patients in CCU, 6 in the cardiac step-down unit and 10 on Towy Ward (with occasional outlying patients). The F1 will gain experience in ECG interpretation, basic echocardiography, basic pacing and angiography, and will have the opportunity to gain a better understanding of more advanced techniques. The F1 will be supported to attend postgraduate educational events and be provided with careers advice. The on-call commitment is 1:11, during which the F1 will be well supported.		
Educational Meetings:	Weekly F1 Teaching, Medical Meetings and Ward Rounds	

Rotation: FP/020	**Hywel Dda UHB**	
Glangwili General Hospital	**General Internal Medicine / Geriatric Medicine**	**Band 1B**
This placement is split between the stroke and rehabilitation wards (2 months in each). The F1 will learn to manage patients with acute stroke and their rehabilitation, the management of Parkinson's disease and the principles of rehabilitation and have experience in the management of acutely ill patients presenting as an emergency. The team encourages active MDT working and provides opportunities to undertake diagnostic procedures and audits as well as observe clinics. The team consists of a middle grade, 3 SHOs, an F2 and an F1. The F1 will primarily work on the ward - attending ward rounds and completing day to day jobs. They will also attend MDT meetings in the stroke and rehabilitation wards. The on-call commitment is 1:22.		
Educational Meetings:	Weekly F1 Teaching and Departmental Teaching	
Glangwili General Hospital **Prince Philip Hospital**	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 2B**
Elective and emergency management of surgical patients (general/upper GI/colorectal), with particular emphasis on minimal access surgery and endoscopic intervention. Glangwili General Hospital	**Emergency Medicine**	**Band 1A**
The assessment and management of both minor and major presentations to the Emergency Unit under on-site Clinical Supervision. Trainees will be involved in RCEM audits, care of children and Cognitive Assessment in the Elderly. The on-call commitment is 1:3.		
Educational Meetings:	Weekly F1 Teaching and Emergency Department Teaching Whole Hospital Audit Meetings	

Rotation: FP/021	**Hywel Dda UHB**	
Glangwili General Hospital	**General Internal Medicine / Respiratory Medicine**	**Band 1B**
The team, consisting of 4 consultants, 2 SpRs, a Specialty Doctor, a Clinical Fellow, an Internal Medicine Trainee, an F2 and F1, are responsible for the daily care across a 19 bedded respiratory ward and up to 5 outlying patients. The F1 is expected to attend and contribute to 2 consultant and one middle grade ward rounds per week. The role also includes clerking and assessing new patients on the ward, the daily review of patients, mini-clerking and preparation of day cases (e.g. for pleural clinic, CT guided biopsies and thoracoscopy), involvement in weekly thoracoscopy list in rotation with other junior doctors. There are opportunities to learn pleural aspiration, USS, Intercostal drain insertion and many other specialties techniques from the team and specialist respiratory nurses. The on-call commitment is 1:22 on the acute unselected medical take.		
Educational Meetings:	Weekly F1 Teaching, Departmental Teaching, Respiratory Medicine Teaching	
Glangwili General Hospital **Prince Philip Hospital**	**General Surgery / Colorectal Surgery**	**Band 2B**
Elective and emergency management of surgical patients (general/upper GI/colorectal), with particular emphasis on minimal access surgery and endoscopic intervention. The F1 will have a rounded experience across the breadth of the specialty, with experience provided in assessment and management of emergency and critically ill surgical patients. The F1 is also encouraged to participate in Service Improvement Projects. There are day and night on calls with a commitment of 1:11. *Due to Covid pathways, there may be an ongoing requirement for F1s to undertake duties at PPH.*		
Educational Meetings:	Twice weekly MDT meetings Weekly Surgical Teaching, F1 Teaching and Departmental Teaching Monthly Departmental M+Ms	
Glangwili General Hospital	**Anaesthetics / Intensive Care Medicine**	**Band 1B**
The post will alternate weekly between Anaesthetics and Intensive Care Medicine. Theatre weeks will involve working under the supervision of a consultant or senior doctor providing anaesthesia for a wide range of surgeries and variety of patient groups including both adults and children, learning how to pre assess patients and working on the practical and theoretical skills required to induce and maintain anaesthesia. In ICU, supervised by a consultant and 2 resident doctors, the F1 will deal with critically ill patients from admission through to discharge, including patient reviews and presenting on ward rounds. Attendance at emergency calls is encouraged. The on-call commitment is 1:11 and includes night shifts as part of the surgical rota.		
Educational Meetings:	Weekly F1 Teaching and Departmental Teaching Monthly Audit/Clinical Governance Meetings	

Rotation: FP/022	**Hywel Dda UHB**	
Glangwili General Hospital	**General Internal Medicine / Gastroenterology**	**Band 1B**
The F1 will have exposure to and be involved in the active management of a wide range of luminal and hepatology related conditions that are seen as an in-patient including complex inflammatory bowel disease, Decompensated liver disease, Gastrointestinal malignancies, and advanced nutritional related pathologies. They will benefit from regular consultant ward rounds and bed side teaching, and are encouraged to seek out educational opportunities (e.g. attending outpatients). Specialist clinics run regularly including complex IBD, Liver disease comprising of viral hepatitis and post liver transplant follow up alongside general gastroenterology referrals. There is also an opportunity to attend the endoscopy department to observe both Upper and lower Gastrointestinal endoscopy, and to complete the attachment being competent in performing abdominal paracentesis. The on-call commitment (1:22) is on the general medical rota, where the F1 will see patients admitted to the Acute Medical Assessment Unit as part of the Medical Emergency Team as well as attending acute stroke thrombolysis calls.		
Educational Meetings:	Daily Ward Rounds Weekly Medical Meeting and F1 Teaching Whole Hospital Audit Meetings	
Glangwili General Hospital **Prince Philip Hospital**	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 2B**
Elective and emergency management of surgical patients (general/upper GI/colorectal), with particular emphasis on minimal access surgery and endoscopic intervention. The F1 will have a rounded experience across the breadth of the specialty, with experience provided in assessment and management of emergency and critically ill surgical patients. The F1 is also encouraged to participate in Service Improvement Projects. There are day and night on calls with a commitment of 1:11. *Due to Covid pathways, there may be an ongoing requirement for F1s to undertake duties at PPH.*		
Educational Meetings:	Twice weekly MDT meetings Weekly Surgical Teaching, F1 Teaching and Departmental Teaching Monthly Departmental M+Ms	
Glangwili General Hospital	**Otolaryngology**	**Band 2B**
F1 duties include management of elective and emergency inpatients on the adult ENT and paediatric wards. There are also opportunities to attend outpatient clinics and spend time in the operating theatre, which allows doctors to improve their management of common ENT conditions and build a logbook of surgical cases they have been involved in for future training jobs. A significant proportion of our patient group is aged less than 18 which provides paediatric exposure for those doctors considering a career in paediatric medicine or general practice. F1s are also encouraged to support the teaching of medical students or take part in taster days in other specialties. The general surgical on-call commitment is 1:5.		
Educational Meetings:	Weekly F1 Teaching and Departmental Teaching	

Rotation: FP/023	**Hywel Dda UHB**	
Prince Philip Hospital	**General Internal Medicine / Respiratory Medicine**	**Band 1B**
The Ward 3 patients are split between the 3 Respiratory Consultants but cared for by the whole team. The F1 will be involved in managing patients with respiratory failure, including non-invasive ventilation on the ward, and patients with pleural disease including a variety of chest drains. Competency training in NIV is led by our senior respiratory nurse specialist and pleural procedures learned in the postgraduate skills lab led by registrars and teaching fellows. When time permits, F1s also attend pleural clinics to learn pleural aspiration and chest drain insertion skills.		
Educational Meetings:	Daily Consultant Ward Rounds Weekly Medicine Meetings, F1 Teaching, Departmental Teaching and Grand Rounds, and Whole Hospital Audit Meetings	
Glangwili General Hospital **Prince Philip Hospital**	**General Surgery / Colorectal Surgery**	**Band 2B**

Educational Meetings:	Weekly F1 Teaching and Departmental Teaching Monthly Audit/Clinical Governance Meetings	
Glangwili General Hospital	**Geriatric Medicine**	**Band 1B**
Led by consultants with interests in frailty and rehabilitation and Osteoporosis and Orthogeriatrics, and supervised by a middle grade, GP trainee and F2. The F1 will complete war rounds for the 20 bed ward (covering medicine and frailty), with some patients on an outlier ward and the Intensive Therapy Unit. They will learn broad based acute and long term management of complex issues, including comorbidity, end of life care, DNAR issues, consent and capacity issues, falls and frailty, and communication with the patient and families. There is optional attendance at OPD clinics and publish research. There is an on call General Medical rota for acute medical admissions for 1:22, supervised by a Medical Registrar, at the Clinical Decision Unit, in Ambulatory Care and in the Coronary Care Unit.		
Educational Meetings:	Weekly F1 Teaching, Postgraduate Meeting MRCP coaching, and Clinical Skills lab coaching	
Glangwili General Hospital **Prince Philip Hospital**	**Obstetrics & Gynaecology**	**Band 2B**
This is a busy team overseeing 3,200 maternity deliveries and 6000-8000 gynae referrals per annum. The F1 will experience obstetric and gynae emergencies on the Labour Ward, Antenatal/ Post Natal Ward, Gynae Ward, elective caesarean list and elective gynae theatre, and there is the opportunity to attend out-patient clinics to develop skills in obtaining histories, undertaking clinical examinations, interpreting results and formulating management plans. The F1 may also attend special interest clinics (such as hysteroscopy, colposcopy, urodynamics, early pregnancy and the antenatal day assessment unit) time permitting and undertake audits, medical student teaching and other educational activities. The on-call commitment is 1:11 and includes nights.		
Educational Meetings:	Weekly F1 Teaching, Departmental Teaching, Labour Ward Forum MDT Meetings and Risk Management Meetings Monthly PROMPT training	

Rotation: FP/025	**Betsi Cadwaladr UHB**	
Glan Clwyd Hospital	**General Internal Medicine / Renal Medicine**	**Band 1B**
The renal department consists of 3 consultants, working a separate renal and general medicine on-call. All consultants cover the Haemodialysis unit, and look after peritoneal dialysis and renal transplant patients. The rest of the team consists of a Specialty Doctor, an SpR, an Internal Medicine Trainee, and F1 and a Physician Associate, and are supported by specialist nurses in chronic kidney disease, Renal anaemia, transplantation, peritoneal dialysis, as well as a dedicated consultant psychologist, renal pharmacist, renal dietician, and Renal social worker. Ward work is based on ward 9, which is shared with the endocrine team, and on average there are 16 inpatients. There will be a varied inpatient workload consisting of general medical problems admitted via A+E/Acute medical unit, patients admitted with renal diseases or acute kidney injury, dialysis patients directly admitted from the unit, or unwell transplant recipients. Patients are also admitted for renal biopsies, or for radiological procedures.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Physician's Rounds Monthly Medical Governance Meeting	
Glan Clwyd Hospital	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 1A**
The F1 will be looking after surgical inpatients, under the supervision of SHOs, registrars and consultants. There are a range of clinical presentations and underlying pathology in our patients. The role involves ward rounds, communicating with other professional groups (e.g. GPs), clinical ward work including preforming procedures, writing discharge summaries, and assessing patients presenting as emergencies and contributing to their resuscitation. There is also the opportunity to undertake audit projects and teaching of medical students.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Surgical Teaching	
Glan Clwyd Hospital	**General Internal Medicine / Geriatric Medicine**	**Band 1B**
The F1 will provide medical care for patients on the ward and a variable number of outliers under the care of consultants on the team. This includes taking histories, clinical examinations, formulating management plans and discharge plans, reviewing results, making referrals, communicating with patients and family, safe prescribing and tilt table testing. Patients are generally older and admitted with falls, confusion and stroke, and require comprehensive geriatric assessments by the multi-disciplinary team. There are also opportunities to participate in audits.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference, Physician's Rounds and Care of the Elderly Meeting Monthly Medical Governance Meeting	

Rotation: FP/026	**Betsi Cadwaladr UHB**	
Glan Clwyd Hospital	**General Internal Medicine / Respiratory Medicine**	**Band 1B**
This post is located on Ward 11, and the team consists of 2 Speciality Registrars, 1 Core Medial Trainee, 3 F2s (one academic) and 2 F1s. The consultants cover the ward on a rotating pattern, and the team is supported by a ward NIV Nurse, smoking cessation practitioner and a Personal Assistant. There is an MDT board round each morning. There is no on-call commitment, however locum shifts can be picked up. Attendance is expected at the weekly Respiratory teaching even if not on the ward that day.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference, Physician's Rounds and Respiratory Teaching Monthly Medical Governance Meeting	
Glan Clwyd Hospital	**General Surgery / Breast Surgery**	**Band 1A**
The F1 will provide care for Breast and Oncoplastic patients, and they will be part of the general surgical on call rota where they will look after acutely and chronically ill general surgical patients. They will have the opportunity to attend outpatient clinics, Theatre sessions and ward rounds. In addition to that they will have an opportunity to learn basic surgical skills and to get involved in audit and research.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Surgical Teaching	
Glan Clwyd Hospital	**Emergency Medicine**	**Band 1A**
The department is staffed with a mixture of Consultants, SAS Doctors and juniors. In addition, there is a strong nursing team including ENPs, extended scope physiotherapists and an evolving team of Advanced Nurse Practitioners. The department is part of a new build Emergency Quadrant, completed just over 5 years ago, and future proofed to deal with an annual attendance of 70,000. The Emergency Quadrant includes an acute medical unit, surgical assessment unit, and a co-located GP Out of Hours unit. We recently developed a Same Day Emergency Care (SDEC) unit for ambulatory cases, which is now supported by a full-time acute physician. We are planning to augment our service with the addition of a frailty unit and a GP admissions area.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Emergency Medicine Teaching	

Rotation: FP/027	**Betsi Cadwaladr UHB**	
Glan Clwyd Hospital	**General Internal Medicine / Endocrinology & Diabetes**	**Band 1B**
This post involves the routine care and management of patients on the diabetes and endocrinology ward, including patients on OHAs/Insulins and GLP-1, management of hypoglycaemia, DKA, diabetic foot ulcers. The F1 should also liaise with diabetes specialist nurses and the vascular and orthopaedic teams. The F1 will accompany the on-call consultants on post take ward rounds and undertake jobs generated by this, clerk new admissions and ensure a sufficient patient handover is completed. There is also the opportunity to teach medical students on the ward.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference, Physician's Rounds and Ward Teaching Monthly Medical Governance Meeting

There is also the opportunity the attend theatre and out-patient clinics and to undertake audit projects.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Surgical Teaching	
Glan Clwyd Hospital	**Paediatrics / Neonatal Medicine**	**Band 1B**
F1s will join the General Paediatrics team. There is daily teaching after handover and during ward rounds. They will also undertake a 1:5 weekend on-call rota (with no nights) as well as a long day shift once every week.		
Educational Meetings:	Weekly F1 Teaching and Clinical Conference	

Rotation: FP/030	**Betsi Cadwaladr UHB**	
Glan Clwyd Hospital	**General Internal Medicine / Gastroenterology**	**Band 1B**
This busy post includes exposure to a wide variety of medical conditions on call, enabling taking a history and examination, developing a plan of investigation and management, and to perform practical procedures. It is predominantly ward based and requires close working with other ward staff. There are opportunities to attend regular general medical meetings and Gastroenterology education meetings, which covers case presentation/audits and medical governance aspects. The F1 will improve their clinical skills on a background of learning hepatobiliary and luminal gastrointestinal disorders and develop competency at performing abdominal paracentesis. They will also provide cross cover on the ward, and undertake the on-call commitment for the unselected medical take.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Physician's Rounds Monthly Medical Governance Meeting	
Glan Clwyd Hospital	**General Surgery / Colorectal Surgery**	**Band 1A**
This post gives exposure to all types of elective and emergency general surgery, and ample opportunity for exposure in theatres and clinics. All common surgical emergencies are frequently admitted to the department, and there is some cross cover for vascular surgery emergencies when on call. The main duties of F1 include daily ward care for consultants' patients, completing discharge summaries, preparing patients for theatre, and clerking in emergency surgical patients.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Surgical Teaching	
Glan Clwyd Hospital	**Paediatrics / Neonatal Medicine**	**Band 1B**
This post involves the assessment and management of acutely unwell children presenting to children's ward, including initiation of management. They will attend ward rounds, undertake admission/assessment of acute referrals, review and follow up of patients, delivering a daily handover and taking bloods. The F1 will learn specific practical skills (e.g. airway care, IV cannulation/infusion, catheterisation and venepuncture) and develop and understanding of common infective conditions (e.g. bronchitis, sepsis, gastroenteritis, respiratory tract infections). There is the opportunity to attend clinic sessions, including sub-specialties, and teaching sessions. There is also some time spent on the neonatal unit, including undertaking baby checks. The F1 will develop skills in recognising and treating a sick child, and to build on already established practical skills and learning to apply these skills to children and young people.		
Educational Meetings:	Weekly F1 Teaching and Clinical Conference	

Rotation: FP/031	**Betsi Cadwaladr UHB**	
Glan Clwyd Hospital	**Acute Internal Medicine**	**Band 1B**
The department consists of 4 Consultant Physicians, an associated specialist who covers review patients three days a week, an F2 and F1. There is ambulatory care area, DVT service and ADTT service attached to the unit. The F1 is involved with the generic clerking and the ongoing care of the patients in the unit prior to their transfer to other wards.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference and Physician's Rounds Monthly Medical Governance Meeting	
Glan Clwyd Hospital	**General Surgery / Vascular Surgery**	**Band 1A**
The F1 will provide care for vascular inpatients across the hospital and the vascular ward. The hospital is the vascular hub for North Wales and the F1 will be exposed to a great variety of acute medical and vascular surgical pathologies. There is a daily consultant ward round along with a team of vascular middle grades and juniors including registrar/ fellow and SHOs. The doctor will do on calls for the general surgery team.		
Educational Meetings:	Weekly F1 Teaching, Clinical Conference, Surgical Teaching and Vascular Teaching	
Glan Clwyd Hospital	**Anaesthetics**	**Band 1A**
The F1 will have experience both in theatres and on the Intensive Therapy Unit. In theatre, there are opportunities to practice airway skills (e.g. Bag-Mask ventilation, insertion of airway adjuncts/LMA/ETT/NG tubes), peripheral iv access (e.g. cannulas, mid lines, PICC lines), use of the standard/video laryngoscope, to observe advance airway techniques (e.g. fibre optic intubation, use of ultrasound), and to familiarise with perioperative management of the patient (e.g. pre-operative assessment, post-operative management of pain/nausea/vomiting). In ITU, the F1 role involves the daily handover and the daily review of patients. There is the opportunity to perform skills like NG tube insertion, USS guided CVC, vacate and PICC line insertion, arterial line insertion and airway skills in sick patients. As well as to observe tracheostomy, bronchoscopy and assisting with the transfer of ITU patients for imaging.		
Educational Meetings:	Weekly F1 Teaching and Clinical Conference	

Rotation: FP/032	Hywel Dda UHB	Priority Programme
Bronglais General Hospital	**General Internal Medicine / Cardiology**	**Band 1B**
The F1 doctor is ward based during the working day, providing medical care of inpatients. During this placement, trainees will build on their knowledge of Cardiology conditions, assess problems, and determine appropriate course of action. Daytime on call rota 1:5 and night duty rota 1:8		
Educational Meetings:	Daily Handover Weekly Foundation teaching, Grand Rounds and Medical Department Teaching Monthly RCP Edinburgh Lectures, Journal Club and Junior Doctors Forum	
Bronglais General Hospital	**General Surgery / Upper Gastro-intestinal Surgery**	**Band 1B**

Rotation: FP/035	**Cardiff & Vale UHB**	
University Hospital Llandough	**General Internal Medicine / Endocrinology & Diabetes**	**Band 2B**
The F1 in this post is responsible for a wide mix of general medical in-patients with a relatively short stay patient case mix. There is a diabetes and endocrinology specialty which offers experience both on the ward and reviewing ward referrals with senior colleagues.		
Educational Meetings:	Weekly Medicine Teaching sessions Monthly Grand Round Monthly F1 Teaching	
University Hospital of Wales **University Hospital Llandough**	**General Surgery / Breast Surgery**	**Band 2B**
The F1 is involved with ward work for elective admissions and may also attend Breast Clinics and assist in the operating theatres. The on-call commitment is at UHW.		
Educational Meetings:	Surgical Teaching and Quality & Safety meetings Monthly F1 Teaching & Grand Rounds	
University Hospital of Wales	**Trauma & Orthopaedic Surgery**	**Band 2B**
The F1 role includes the inpatient care for trauma patients, for whom a fracture is just one component of medical/psychosocial frailty. It is mainly ward based with cover of outlying patients as part of a trauma team. The post does not include any elective orthopaedics. There is a focus on pre-operative assessment, optimisation & management.		
Educational Meetings:	Daily Teaching sessions on Trauma, Radiology, Spine & Paediatrics Weekly UHW Grand Round Monthly F1 Teaching and Departmental M&M/Quality & Safety meetings	

Rotation: FP/036	**Cardiff & Vale UHB**	**LIFT Programme**
University Hospital Llandough	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
The post is in Geriatric Medicine focused on providing care to older people with varied conditions and complex needs. There are regular ward rounds and daily board rounds with MDT input. The on-call commitment is part of the General Medicine on call with supervision by acute and on-call physicians.		
Educational Meetings:	Weekly Departmental and Medical Teaching Sessions Quality & Safety Meetings Monthly F1 Teaching and UHL Grand Round	
University Hospital of Wales	**General Surgery / Colorectal Surgery**	**Band 2B**

Educational Meetings:	Weekly UHW Grand Round Surgical Teaching and Quality & Safety meetings Monthly F1 Teaching	
University Hospital of Wales	**Paediatrics**	**Band 2B**
The Children's Hospital F1 post provides an excellent opportunity to gain clinical and academic experience of Paediatrics. F1 posts form part of the tier one rota and have an opportunity to experience of general paediatrics in a busy tertiary centre. This post is well supported by senior colleagues and trainees are encouraged to get involved in teaching, QIP work and other projects.		
Educational Meetings:	Weekly Teaching sessions on Radiology & Microbiology, and Paediatrics Weekly Sim training, Journal Club and Case Presentation Monthly F1 Teaching	
University Hospital of Wales **University Hospital Llandough**	**General Psychiatry LIFT**	
The F1 will have one day per week release to undertake the LIFT element. The General Psychiatry LIFT will be based on Liaison Psychiatry at UHW for 4 months, and then move to Acute Psychiatry within the Acute/Crisis Units in UHL for the remaining 8 months.		

Rotation: FP/037	**Cardiff & Vale UHB**	
University Hospital Llandough	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is based on two wards in Geriatric Medicine, focused on providing care to older people with varied medical conditions, complex care needs and requiring MDT input. We also provide medical cover for patients on ECU admitted on the take. There are rotational periods of on-call/ward-cover and on the acute assessment unit under supervision of the acute and on-call physicians.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine Monthly F1 Teaching and Hospital Grand Round	
University Hospital of Wales	**General Surgery / Colorectal Surgery**	**Band 2B**
This post is based on the Duthie ward, with small numbers of outlying patients. The F1 will be part of a busy colorectal unit, looking after elective admissions and acute general surgery patients. On-call is for general surgical admissions and referrals. This post provides excellent clinical experience and good exposure to acute surgery admissions.		
Educational Meetings:	Weekly UHW Grand Round / Monthly UHL Grand Round M&M / Quality & Safety meetings Monthly F1 Teaching	
University Hospital of Wales	**Trauma & Orthopaedic Surgery**	**Band 2B**

It is mainly ward based with cover of outlying patients as part of a trauma team. The post does not include any elective orthopaedics. There is a focus on pre-operative assessment, optimisation & management.		
Educational Meetings:	Daily Teaching sessions on Trauma, Radiology, Spine & Paediatrics Weekly UHW Grand Round Monthly F1 Teaching and Departmental M&M/Quality & Safety meetings	

Rotation: FP/038	**Cardiff & Vale UHB**	
University Hospital Llandough	**General Internal Medicine / Gastroenterology**	**Band 2B**
This post provides inpatient care to patients with a broad range of general medical and gastrointestinal conditions (including IBD NS liver disease). The ward includes a short stay bed to support admissions for complex endoscopy procedures (national referral centre), day case procedures and specialist infusions. There is opportunity to gain experience in specialist as well as the core practical procedures (e.g. ascitic tap and paracentesis). There is also the potential to observe endoscopy lists and attend outpatient clinics. On-calls are undertaken at Llandough Hospital and supervised by the acute and on-call consultants.		
Educational Meetings:	Weekly Radiology and Departmental meetings, and MEAU Teaching Monthly F1 Teaching	
University Hospital Llandough	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post provides exposure to a great variety of acute medical problems and complex polymorbidity in multiple systems. The primary role of the F1 is to support the care of 15 frail, elderly patients, and patients post take on the UHL Extended Care Unit. The doctor will also support the training of medical students on the firm. On-call is with the general medical intake in UHL and is supported by on-call and acute physicians.		
Educational Meetings:	Weekly Gerontology Case Presentations and Medicine Teaching Monthly F1 Teaching and Grand Rounds	
University Hospital of Wales	**Urology**	**Band 2B**
The F1 provides care for tertiary referral uro-oncology, elective and emergency and general urology patients. Attendance in main and day case theatres is encouraged and this post would suit any doctor interested in an acute specialty, in particular a surgical career. On-call is with the surgical ”Hospital at Night” team.		
Educational Meetings:	Weekly Urology Teaching Sessions, Grand Round and Journal Club Monthly F1 Teaching	

Rotation: FP/039	**Cardiff & Vale UHB**	
University Hospital Llandough	**General Internal Medicine / Respiratory Medicine**	**Band 2B**
The F1 role includes the inpatient care of a broad range of respiratory & general medicine cases. There is good opportunity to gain experience in undertaking pleural procedures, such as pleural aspiration under USS guidance, and potentially chest drain insertion. The F1 can also attend a weekly dedicated pleural clinic, and lung cancer and interstitial lung disease MDTs. On-calls are supervised by the acute and on-call physicians.		
Educational Meetings:	Weekly X-Ray and Educational Meetings Monthly F1 Teaching Grand Rounds	
University Hospital of Wales	**General Surgery / Colorectal Surgery**	**Band 2B**
This post includes an on-call for General Surgery, and commitments in Colorectal Surgery. It is a busy post dealing with interesting in-patients, referred from across Wales. There is an emphasis on the holistic care of the "acutely ill surgical patient".		
Educational Meetings:	Weekly UHW Grand Round MDT Sessions and Teaching Rounds Monthly F1 Teaching	
University Hospital Llandough	**General Internal Medicine / Endocrinology & Diabetes**	**Band 2B**
The F1 is responsible for general medical patients with a range of conditions; supervision is undertaken by both Diabetes and Endocrinology and Clinical Pharmacology consultants. There are rotational periods on-call/ward-cover & on the acute assessment unit with the acute and on-call physicians.		
Educational Meetings:	Weekly Medical and Hospital Grand Rounds Monthly F1 Teaching	

Rotation: FP/040	**Aneurin Bevan UHB**	
Nevill Hall Hospital	**Geriatric Medicine**	Banding to be confirmed
Details coming soon...		
Educational Meetings:		
The Grange University Hospital **Royal Gwent Hospital**	**General Surgery / Colorectal Surgery**	**Band 1A**
Emergency and elective general surgery (including GI and vascular) across two sites. All emergency work and majority of the F1 placement will be based in Grange University Hospital, with some weeks (4 out of 20) based in the Royal Gwent Hospital to gain experience of elective work and peri-operative care. GUH work will include well supervised and supported assessment and initial management of emergency patients on the Surgical Assessment Unit and ongoing ward-based care of emergency patients, within one of the upper GI, colorectal or vascular teams. RGW weeks will comprise peri-operative care of elective patients and those "stepped-down" from GUH. Experience will include assessment and management of acutely unwell and multi-morbid patients, peri-operative and end-of-life care. The on-call commitment is a 20-week rolling rota comprising of 1:10 nights (either GUH or RGW), 1:10 weekend days (GUH), 3 weeks of daytime shifts (RGW) and remainder at GUH.		
Educational Meetings:	Weekly F1 Teaching	
The Grange University Hospital	**General Internal Medicine / Cardiology**	Banding to be confirmed
This post is one of the 16 junior doctor posts on our busy but friendly cardiology team led by 14 consultants. The F1 responsibilities include cover for the 24 bedded cardiology ward as well as gaining level 2 experience from the 17 bed Acute Cardiac Unit. The hospital has 2 catheter labs and a pacing theatre. Procedures including angiography, complex pacing, angioplasty, TOE, DSE and emergency pacing all take place on site providing a wide range of experience in Cardiology. Our teaching and support to the junior team gets consistently good feedback and we are very proud of the training we provide. There is also the opportunity to attend the Cardiothoracic MDT, ECHO and/or Rhythm meetings if of interest. The F1 will gain plenty of GIM experience whilst participating in the unselected medical take at GUH, well supported by the senior tiers of doctors.		
Educational Meetings:	Weekly Grand Round, F1 Teaching, Cardiology Junior Doctors Meeting	

Rotation: FP/041	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Respiratory Medicine**	**Band 2B**
The role includes the inpatient care of a broad range of respiratory and general medicine cases. Particular experience in managing non-invasive ventilation can be obtained in the ward based acute NIV Unit in addition to ITU stepdown patients; including patients with tracheostomies. There is good opportunity to gain experience in undertaking pleural procedures, such as pleural aspiration under USS guidance, and potentially chest drain insertion. The post would suit somebody who would thrive in a busy clinical environment with a high turnover of patients, and is keen to gain experience of managing patients with high levels of acuity. The on-call commitment is at UHL, with supervision by the acute and on-call physicians.		
Educational Meetings:	Weekly Departmental Teaching, and sessions on Medicine, Respiratory & Radiology Weekly Hospital Grand Round Monthly F1 Teaching	
University Hospital of Wales	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is on an acute medical ward focused on providing care to older people with varied medical conditions and complex care needs and requiring MDT input. We provide medical cover for patients on selected surgical wards. There are rotational periods on-call/ward-cover & on the acute assessment unit.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine, and Hospital Grand Rounds Monthly F1 Teaching Bi-Monthly Quality & Safety Meetings	
University Hospital of Wales	**Neurosurgery**	**Band 2B**
This is a busy, rewarding and well supported F1 post, working as a member of the ward team. There are lots of opportunities to gain experience of practical procedures such as lumbar puncture, removal of subdural drains, giving Intra-Thecal antibiotics and to spend some sessions working on neurosurgical high care ward. There are also opportunities to observe theatre and clinics. There are daily morning MDT meetings, as well as weekly specialist MDT meetings in neurovascular and neuro-oncology. On-call covers neurosurgery and neurology wards (B4N, T4 and C4) with a resident registrar.		
Educational Meetings:	Twice Weekly Departmental Teaching Weekly Grand Round Monthly F1 Teaching	

Rotation: FP/042	**Cardiff & Vale UHB**	
University Hospital Llandough	**General Internal Medicine / Gastroenterology**	**Band 2B**
Busy GIM and Gastroenterology ward, with significant input of gastroenterology day cases including endoscopy, IBD infusion room and paracentesis. There are upper and lower GI MDTs weekly, as well as IBD MDTs. There are general gastroenterology clinics, along with several specialist clinics such as coeliac, IBD and GI radiation disease. On-call is part of the general medical intake and supervised by on-call and acute physicians.		
Educational Meetings:	Weekly Departmental Meetings/Teaching and Hospital Grand Round Monthly F1 Teaching	
University Hospital of Wales	**Urology**	**Band 2B**
Our F1 provides care for Tertiary referral uro-oncology, elective and emergency and general urology patients. Attendance in main and day case theatres is encouraged and this post would suit any doctor interested in an acute specialty, in particular a surgical career. On-call is with the surgical hospital at night team.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine, and UHW Grand Rounds Monthly F1 Teaching Bimonthly Quality and Safety Meetings	
University Hospital of Wales	**Paediatrics**	**Band 2B**
The Children's Hospital F1 post provides an excellent opportunity to gain clinical and academic experience of Paediatrics. F1 posts form part of the tier one rota and have an opportunity to experience of general paediatrics in a busy tertiary centre. This post is well supported by senior colleagues and trainees are encouraged to get involved in teaching, QIP work and other projects. The department is supportive of trainees undertaking exams, additional qualifications & higher degrees.		
Educational Meetings:	Weekly Teaching sessions on Radiology & Microbiology, and Paediatrics Weekly Sim training, Journal Club and Case Presentation Monthly F1 Teaching	

Rotation: FP/043	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Infectious Diseases**	**Band 2B**
This post is based on ward A7, a busy ward which houses the inpatient Gastroenterology/Hepatology and Infectious Disease Units. The F1 will look after patients under each of these teams as well as general internal medicine. They will also participate in the acute general medicine on-call rota. The F1 is supervised at all times by CT/IM trainees as well as specialty registrars.		
Educational Meetings:	Weekly Medicine Teaching, Grand Rounds and Ward Meeting Monthly F1 Teaching	
University Hospital of Wales	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 2B**
The F1 is responsible for managing acute admissions and clerking elective patients. This is a busy post with additional days leave incorporated in the rota (European Working Time Directive Days). The on-call commitment is part of the general surgical rota.		
Educational Meetings:	Weekly Grand Rounds Departmental Teaching and Quality & Safety Meetings Monthly F1 Teaching	
University Hospital of Wales	**Otolaryngology**	**Band 2B**
The F1 will experience a wide range of paediatric and adult presentations to ENT, from minor complaints such as nasal foreign bodies to complex life-threatening airway presentations. The trainee will be based on the ward. The team includes two Foundation Doctors, one GP Trainee and a CT2. F1s will attend casualty clinics and theatre and be part of variable but often busy on-call. There are daily consultant ward rounds and plenty of appetite for teaching and quality improvement work.		
Educational Meetings:	Weekly ENT Teaching and Grand Rounds Quality & Safety Meetings Monthly F1 Teaching	

Rotation: FP/044	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Endocrinology & Diabetes**	**Band 2B**
This post is on an acute medical ward focused on providing care to people with varied medical conditions. We provide medical cover for patients on outlying wards (B1N, C4 Neurology & C5) and occasionally help is needed to support the Endocrine Day Unit. There are rotational periods on-call/ward-cover & on the acute assessment unit under supervision of the acute and on-call physicians.		
Educational Meetings:	Weekly Departmental Teaching and Medicine Teaching, and Grand Rounds Monthly F1 Teaching	
University Hospital of Wales	**General Surgery / Hepato-Pancreatico-Biliary Surgery**	**Band 2B**
This post is in the Cardiff Liver Unit which provides tertiary care to patients with liver surgical problems in South Wales. There are consultant surgeons, clinical fellow, SpR, F2 and three F1s in this unit. There is also a Clinical Nurse Specialist (CNS) for liver cancers. All the consultants do general surgical take and hence there will be a mixture of general and Hepatopancreatobiliary patients in the ward. This is a busy firm, there is at least a daily consultant ward round. This post will provide an opportunity to learn management of complex problems in a systematic way. We have arrangements in the General surgery directorate to get additional help from other F1s as needed. On-call is part of the general surgical rota.		
Educational Meetings:	Weekly Teaching Ward Rounds and UHW Grand Round Monthly General Surgery Q&S Meeting, and F1 Teaching	
University Hospital of Wales	**General Internal Medicine / Medical Assessment Unit**	**Band 2B**
This post is based in MAU with a wide range of medical presentations from GP and EU streams, in a centre with many tertiary services on site. Patients referred range from ambulatory through to patients in resuscitation. The post will build experience with more complex medical procedures, and will include ward rounds with consultants from a variety of specialties. The unit has a high turnover of patients, and so organisation competence and ability to liaise with peers, seniors and MDT colleagues are essential skills. The post will provide opportunity to gain experience in invasive procedures/investigations.		
Educational Meetings:	Weekly Teaching Sessions on Medicine and Endocrinology & Diabetes, and Grand Rounds Monthly F1 Teaching	

Rotation: FP/045	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is on an acute medical ward focused on providing care to older people with varied medical conditions and complex care needs and requiring MDT input. We provide medical cover for patients on selected surgical wards. There are rotational periods on-call/ward-cover & on the acute assessment unit.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine, and UHW Grand Rounds Monthly F1 Teaching Bi-Monthly Quality & Safety Meetings	
University Hospital of Wales	**General Internal Medicine / Gastroenterology**	**Band 2B**
This post is based a busy ward with high acuity patients. There are often opportunities to develop clinical skills such as ascitic drain insertion. Patients include those with varied general medical and gastroenterological conditions, and those with central feeding lines. Cross cover includes hepatology and infectious diseases. There are rotational periods of on call/ward cover and on the acute assessment unit under supervision of the acute and on-call physicians.		
Educational Meetings:	Weekly Grand Rounds and Gastroenterology Meetings Quality & Safety Meetings Monthly F1 Teaching	
University Hospital of Wales	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 2B**
The F1 is responsible for managing acute admissions and clerking elective patients. This is a busy post with additional days leave incorporated in the rota (European Working Time Directive Days). The on-call commitment is part of the general surgical rota.		
Educational Meetings:	Weekly Grand Rounds Departmental Teaching and Quality & Safety Meetings Monthly F1 Teaching	

Rotation: FP/046	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Endocrinology & Diabetes**	**Band 2B**
This post is based on the Acute Medical Decisions Unit; an admissions ward dealing with patients who are thought to have shorter lengths of stay. Patients on the unit have a wide range of medical conditions. This is a busy unit with a relatively high turnover of patients. Clinical supervision is by a team of consultants working on a rotational basis with a daily ward round.		
Educational Meetings:	Weekly Medicine Teaching and Grand Rounds Monthly F1 Teaching Bi-Monthly Quality & Safety Meetings	
University Hospital of Wales	**General Surgery / Colorectal Surgery**	**Band 2B**
The F1 will be part of a busy colorectal unit, looking after elective admissions and acute general surgery patients. On-calls are part of the general surgical rota.		
Educational Meetings:	Weekly UHW Grand Round / Monthly UHL Grand Round Surgical Teaching and Quality & Safety meetings Monthly F1 Teaching	
University Hospital of Wales	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is on the Older Persons Short Stay Unit (OPSSU) and is a fantastic opportunity to gain experience in the acute care of older people. We aim to provide a comprehensive geriatric assessment to patients with a wide range of conditions and co-morbidities, working closely with other members of the multi-disciplinary team. We provide daily board rounds followed by senior-led ward rounds. There are rotational periods on-call/ward-cover & on the acute assessment unit under supervision of the acute & on-call physicians.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine, and Grand Rounds Monthly F1 Teaching Departmental Quality & Safety Meetings	

Rotation: FP/047	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is on the Older Persons Short Stay Unit. This is a fantastic opportunity to gain experience in the acute care of older people. It is a 19 bedded ward with wide case mix. We aim to provide a comprehensive geriatric assessment, working closely with other members of the multi-disciplinary team. We provide daily board rounds followed by senior-led ward rounds. There are rotational periods on-call/ward-cover & on the acute assessment unit under supervision of the acute and on-call physicians.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine, and Grand Rounds Monthly F1 Teaching Departmental Quality & Safety Meetings	
University Hospital of Wales	**General Surgery / Vascular Surgery**	**Band 2B**
The post is the specialist Vascular Unit with elective vascular patients and emergency vascular and general patients. There are ample opportunities to attend theatre and out-patient clinics. On-call is part of the general surgical intake. *Please note that the South Wales vascular surgery services are in the process of being centralised in Cardiff.*		
Educational Meetings:	Weekly UHW Grand Round, and AAA and vascular MDTs Monthly F1 Teaching and Quality & Safety meetings	
University Hospital Llandough	**Rehabilitation Medicine**	Banding to be Confirmed
This post is based at the new Welsh spinal rehabilitation centre in UHL and gives an opportunity to experience complex case management, multifaceted rehabilitation and discharge planning. The service is aligned with the brain injury rehabilitation unit. Training opportunities include community services for enablement of patients with disability and to participate in patient education programmes and lead Goal planning meetings. On-call duties are in UHW on the neurological specialty services rota.		
Educational Meetings:	Neurology Case Presentations and Hospital Grand Round Monthly F1 Teaching, Spinal & Brain Injury Rehabilitation Grand Rounds and Neuroscience QI Meetings	

Rotation: FP/048	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is on an acute medical ward focused on providing care to older people with varied medical conditions and complex care needs and requiring MDT input. We provide medical cover for patients on designated outlying wards. There are rotational periods on-call/ward-cover & on the acute assessment unit under supervision of the acute and on-call physicians.		
Educational Meetings:	Weekly Teaching Sessions on Gerontology and Medicine, and Grand Rounds Monthly F1 Teaching Bi-Monthly Quality & Safety Meetings	
University Hospital of Wales	**General Surgery / Vascular Surgery**	**Band 2B**
The post is on the specialist Vascular Unit with elective and emergency vascular and general surgical patients. There are ample opportunities to attend theatre and out-patient clinics. On-call is part of the general surgical intake. Please note the South wales Vascular Surgery services are in the process of being centralised in Cardiff.		
Educational Meetings:	Weekly UHW Grand Round, and AAA and vascular MDTs Monthly F1 Teaching and Quality & Safety meetings	
University Hospital of Wales	**Trauma & Orthopaedic Surgery**	**Band 2B**
The F1 role includes the inpatient care for trauma patients, for whom a fracture is just one component of medical/psychosocial frailty. It is mainly ward based with cover of outlying patients as part of a trauma team. The post does not include any elective orthopaedics. There is a focus on pre-operative assessment, optimisation & management.		
Educational Meetings:	Daily Teaching sessions on Trauma, Radiology, Spine & Paediatrics Weekly UHW Grand Round Monthly F1 Teaching and Departmental M&M/Quality & Safety meetings	

Rotation: FP/049	**Cardiff & Vale UHB**	
University Hospital of Wales	**General Internal Medicine / Stroke Medicine**	**Band 2B**
Based on the acute stroke unit, this post provides experience in acute stroke assessment and management. On-calls are on the acute general medicine rota. There are daily ward rounds on the acute stroke unit and a dedicated multi-professional team.		
Educational Meetings:	Weekly All Wales Stroke Meetings and Grand Rounds Monthly F1 Teaching and Quality & Safety Meetings	
University Hospital of Wales	**General Surgery / Colorectal Surgery**	**Band 2B**
This post involves working in a busy Colorectal Unit on Duthie ward. Consultants are split into two teams covering a broad range of elective Colorectal practice including tertiary services. The duties of this post include ward care of the Colorectal patients, pre-assessment for Surgery and participation on the General surgery on-call rota. This post provides good experience in management of acutely ill surgical patients and sepsis, cancer, nutrition, pre-optimisation and enhanced recovery. There are opportunities to attend the operating theatre, cancer MDTs and outpatient clinics. Foundation doctors are encouraged to be involved in an audit project or service evaluation during the post. There are also opportunities to undertake GCP training and participate in an active research programme.		
Educational Meetings:	Weekly UHW Grand Round, and Colorectal Radiology and Data Meetings Monthly F1 Teaching and Quality & Safety meetings	
University Hospital of Wales	**Haematology**	Banding to be confirmed
This post is based in Haematology and includes the Adult Blood and Marrow Transplant (BMT) Unit. A busy post with excellent support from F2, CT1/2, SpR and consultant physicians in addition to highly trained ward & specialist nurses. Core skills gained include the care of the acutely unwell patient as well as insight into the treatment of haematological malignancies. F1s leave with an in-depth understanding of the full blood count (the most widely requested test in medicine) and knowledge of how (and when) to support pancytopenic patients with transfusion and/or prophylactic antibiotics. Post-holders are encouraged to attend any of the many clinics on offer.		
Educational Meetings:	Weekly Grand Rounds, BMT Ward Teaching, Lymphoma and Myeloid & Inpatient MDTs Fortnightly BMT Teleconference and MDT Monthly F1 Teaching and Quality & Safety meetings	

Rotation: FP/050	**Cardiff & Vale UHB**	
University Hospital Llandough	**General Internal Medicine / Clinical Pharmacology & Therapeutics**	**Band 2B**
This is an excellent opportunity to experience clinical pharmacology and toxicology in a tertiary centre, working under the supervision of consultants internationally recognised within the field. This post-holder is responsible 15 general medical beds. There are rotational periods on-call/ward-cover & on the acute assessment unit under supervision of the acute and on-call physicians.		
Educational Meetings:	Weekly Medicine Teaching and Grand Rounds Monthly F1 Teaching	
University Hospital of Wales	**General Surgery / Hepato-Pancreatico-Biliary Surgery**	**Band 2B**
This post is in the Cardiff Liver Unit which provides tertiary care to patients with liver surgical problems. There will be a mixture of general and Hepatopancreatobiliary patients in the ward, as all the consultants do general surgical take. This is a busy firm; there is at least a daily consultant ward round. This posting will provide an opportunity to learn management of complex problems in a systematic way. We have arrangements in the General surgery directorate to get additional help from other F1s as needed. On-call is part of the general surgical rota.		
Educational Meetings:	Weekly Teaching Ward Rounds and UHW Grand Rounds Monthly General Surgery Quality & Safety Meeting and F1 Teaching	
University Hospital of Wales	**General Internal Medicine / Geriatric Medicine**	**Band 2B**
This post is on an acute medical ward focused on providing care to older people with varied medical conditions and complex care needs and requiring MDT input. We provide medical cover for patients on designated outlying wards. University Hospital of Wales	**Emergency Medicine**	**No Banding (5% Supplement)**
The Emergency Unit experience includes the whole breadth of adult and paediatric patients presenting from relatively minor injuries to critically unwell after major trauma. We also see the medically unwell and those suffering mental illness. The environment promotes judicious use of diagnostic acumen and investigations. Procedural skills such as joint reduction can be learnt and with direct consultant supervision, leadership of cardiac arrest and trauma teams can be practiced.		
Educational Meetings:	Daily Teaching, and Weekly UHW Grand Round Monthly F1 Teaching, Departmental Teaching and Quality & Safety Meetings	
University Hospital of Wales **Marie Curie Hospice** **Velindre Cancer Centre**	**Palliative Medicine LIFT**	
This is a new LIFT opportunity from 2022 with one day per week working alongside a variety of Palliative care teams in Cardiff and the Vale.		

Rotation: FP/057	**Aneurin Bevan UHB**	
Nevill Hall Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The F1 in respiratory medicine will work as part of a busy and vibrant respiratory team on a ward based specialty unit, and will look after patients with respiratory disease as well as some patient with general internal medicine presentations. The post involves day to day review and management of ward patients and is well supported by other junior members in a friendly and nurturing environment. There is an opportunity to perform practical procedures under the guidance of onsite consultant staff and support from a Physician's Associate and nurse specialists. Departmental educational meetings are practically focused to increase knowledge and experience of dealing with common medical and respiratory presentations. The F1 will gain plenty of GIM experience whilst participating in the unselected medical take at GUH, well supported by the senior tiers of doctors.		
Educational Meetings:	Weekly Medical Grand Round, Respiratory Team Teaching, Hospital Grand Round and F1 Teaching	
The Grange University Hospital Royal Gwent Hospital	**General Surgery / Colorectal Surgery**	**Band 1A**
Emergency and elective general surgery (including GI) across two sites. All emergency work and majority of the F1 placement will be based in Grange University Hospital, with some weeks (4 out of 20) based in the Royal Gwent Hospital to gain experience of elective work and peri-operative care. GUH work will include well supervised and supported assessment and initial management of emergency patients on the Surgical Assessment Unit and ongoing ward-based care of emergency patients, within one of the upper GI or colorectal teams. RGW weeks will comprise peri-operative care of elective patients and those "stepped-down" from GUH. Experience will include assessment and management of acutely unwell and multi-morbid patients, peri-operative and end-of-life care. The on-call commitment is a 20-week rolling rota comprising of 1:10 nights (either GUH or RGW), 1:10 weekend days (GUH), 3 weeks of daytime shifts (RGW) and remainder at GUH.		
Educational Meetings:	Weekly F1 Teaching	
Nevill Hall Hospital	**General Internal Medicine / Endocrinology & Diabetes**	**Band 1B**
All F1s will generally be ward based during the 'normal' working day and expected to deliver the daily medical care of all the patients under the care of the Consultant. This involves working with the rest of the team to ensure that care is delivered and the patients' medical records are maintained. There is an opportunity to work with the consultant in outpatient clinic for around one day per week. It is expected that the F1 attends the structured departmental teaching programme. During the on-call commitment, the F1 will be involved in generic clerking of patients admitted to the Emergency Assessment Unit.		
Educational Meetings:	Weekly Diabetes Meeting, Journal Club, Departmental Teaching, Grand Rounds and F1 Teaching	

Rotation: FP/058	**Aneurin Bevan UHB**	
The Grange University Hospital	**General Internal Medicine / Gastroenterology**	Banding to be confirmed
The F1 will work with a team of dedicated specialists in Gastroenterology and Hepatology. The Gastroenterology ward is split into luminal/ IBD and hepatology, with opportunities for the F1 to work across both specialities. They will form an integral part of a wider ward team consisting of consultants, SPR, IMT and physician assistants as well as multidisciplinary input from dieticians, alcohol support teams and specialist nurses. The F1 will be working days based in the Grange Hospital, with exposure to a wide variety of GI and hepatology presentations including Upper GI bleeding, liver failure and acute inflammatory bowel disease. They will be supported by senior staff and will have the opportunity to develop skills in diagnosing and managing GI disease as well as performing procedures such as ascitic drains. Gastroenterology has an active teaching programme including weekly liver and general gastroenterology teaching, and the F1 will gain plenty of GIM experience whilst participating in the unselected medical take at GUH, well supported by the senior tiers of doctors.

Details coming soon…		
Educational Meetings:		
The Grange University Hospital	**Anaesthetics / Intensive Care Medicine**	Banding to be confirmed
The post is split between anaesthetics and critical care (2 months in each). In anaesthetics the focus is on gaining a rudimentary understanding provision of anaesthesia for ASA 1 and 2 patients undergoing planned and emergency surgery. This should include anaesthetic pre op assessment, planning anaesthetic technique and basics of airway management. In the Intensive Therapy Unit the focus should be on the recognition and management of the critically ill patient and provision of support for such a patient in the first few hours of care utilising a systematic ABC resuscitation approach as well as recognition of when to call for help. Other learning opportunities are also available, such as spending time in the anaesthetic recovery room, attending cardiac arrest calls, attending acute pain rounds and shadowing the critical care outreach team. The on-call commitment is a full day 1:8 during the critical care period.		
Educational Meetings:	Weekly F1 Teaching and Departmental Teaching	

Rotation: FP/070	**Betsi Cadwaladr UHB**	
Wrexham Maelor Hospital	**General Internal Medicine / Endocrinology & Diabetes**	Banding to be confirmed
The 9am to 5pm day usually consists of a consultant/registrar-led ward round and general ward work. Most teams have their own wards. All medicine posts include an on-call commitment, usually on the general medical rota, which will include long days (1:6), two weekends and a block of nights (7 nights over 2 weeks) during the 4-month placement. During on-calls, the F1 will be responsible for clerking new admissions to the Medical Assessment Unit/A&E or ward work (on weekends).		
Educational Meetings:		
Wrexham Maelor Hospital	**General Surgery / Colorectal Surgery**	Banding to be confirmed
The 8am to 5pm days consist of ward rounds, attending clinics, assisting in theatre or using spare time for self-directed study. The F1 may be included on the arrival's rota, which requires undertaking blood tests and writing drug charts for elective surgical admissions. The on-call commitment includes long days (8am to 6pm), evenings (4.30pm to 11pm) and two weekends during the 4-month placement, but no night shifts. During on-calls, the F1 is responsible for clerking GP admissions to the Surgical Assessment Unit and carrying out ward jobs that have been handed over.		
Educational Meetings:		
Wrexham Maelor Hospital	**Acute Internal Medicine**	Banding to be confirmed
The F1 role is within a busy medical team with exposure to a high number of admissions. The team consists of a number of seniors to leave the F1 well supported in this environment.

Wrexham Maelor Hospital	**General Internal Medicine / Cardiology**	Banding to be confirmed
The 9am to 5pm day usually consists of a consultant/registrar-led ward round and general ward work. Most teams have their own wards. All medicine posts include an on-call commitment, usually on the general medical rota, which will include long days (1:6), two weekends and a block of nights (7 nights over 2 weeks) during the 4-month placement. During on-calls, the F1 will be responsible for clerking new admissions to the Medical Assessment Unit/A&E or ward work (on weekends).		
Educational Meetings:		
Wrexham Maelor Hospital	**General Surgery / Upper Gastro-Intestinal Surgery**	Banding to be confirmed
The 8am to 5pm days consist of ward rounds, attending clinics, assisting in theatre or using spare time for self-directed study. The F1 may be included on the arrival's rota, which requires undertaking blood tests and writing drug charts for elective surgical admissions. The on-call commitment includes long days (8am to 6pm), evenings (4.30pm to 11pm) and two weekends during the 4-month placement, but no night shifts. During on-calls, the F1 is responsible for clerking GP admissions to the Surgical Assessment Unit and carrying out ward jobs that have been handed over.		
Educational Meetings:		
Wrexham Maelor Hospital	**Geriatric Medicine**	Banding to be confirmed
The F1 within the Care of the Elderly team shares the clinical responsibilities with other SHOs and is supported by enthusiastic and available senior team members. There is a focus on teaching, and flexibility with learning opportunities to allow the F1 to pursue their area of interest within the specialty.		
Educational Meetings:		

Rotation: FP/072	**Betsi Cadwaladr UHB**	
Wrexham Maelor Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The 9am to 5pm day usually consists of a consultant/registrar-led ward round and general ward work. Most teams have their own wards. During on-calls, the F1 is responsible for clerking GP admissions to the Surgical Assessment Unit and carrying out ward jobs that have been handed over.		
Educational Meetings:		
Wrexham Maelor Hospital	**Anaesthetics**	Banding to be confirmed
A popular placement including daily direct teaching time with senior anaesthetics and consultants within theatre. A clinically and academically fulfilling post that builds competence in many transferable skills and a focus on hands on experience.		
Educational Meetings:		
General Practice LIFT		
The post incudes a one day per week longitudinal placement in General Practice. The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact, from telephone to face to face consultations. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/075a is linked to Crane Medical Centre, which is a 15 minute drive or 45 minutes via public transport from Wrexham. FP/075b does not have a GP LIFT allocation for FP2022, and so will be replaced with another specialty (to be confirmed). FP/075c is linked to Roseneath Medical Practice, which is a roughly 30 minute drive from Wrexham, with no public transport links.		

Rotation: FP/076	**Betsi Cadwaladr UHB**	
Wrexham Maelor Hospital	**General Internal Medicine / Renal Medicine**	Banding to be confirmed
The 9am to 5pm day usually consists of a consultant/registrar-led ward round and general ward work. Most teams have their own wards. Rotation: FP/089	**Hywel Dda UHB**	
Withybush General Hospital	**General Internal Medicine / Endocrinology & Diabetes**	**Band 2B**
The F1 is ward based during the working day, providing medical care of inpatients. They will gain experience in managing common Diabetic emergencies and conditions, as well as General Medicine. The post also has an educational responsibility for supervising Medical Students allocated to the department. There is daily teaching during handover. The on-call commitment includes a daytime rota of 1:5 and a night duty rota of 1:8.		
Educational Meetings:	Weekly F1 Teaching, Grand Rounds and Department Teaching Monthly RCP Edinburgh Lectures, Journal Club and Junior Doctors Forum	
Withybush General Hospital	**General Surgery**	**Band 2B**
The "on take" week (roughly every 5-6 weeks) involves seeing, clerking and admitting all surgical referrals to the department. The remaining weeks involved taking care of these patients, preparing them for theatre and potentially discharging and further referring to other teams based on their needs. Each day involves morning handover followed by consultant ward rounds. The F1 will undertake the required jobs for each patient, such as ordering imaging, taking bloods, following up on investigations and speaking to your senior regarding results and appropriate care management. There is the opportunity to assist in theatre and to clerk patients in prior to their procedure. There is daily teaching during handover. The on-call commitment includes a long day each week, and weekend on call during the "on take" week.		
Educational Meetings:	Weekly F1 Teaching, Grand Rounds and Department Teaching Monthly RCP Edinburgh Lectures, Journal Club and Junior Doctors Forum	
Withybush General Hospital	**General Internal Medicine / Cardiology**	**Band 2B**
The F1 is ward based during the working day, providing medical care of inpatients. They will build on their knowledge of Cardiology conditions, assess problems and determine appropriate course of action. The post also has an educational responsibility for supervising Medical Students allocated to the department. The on-call commitment includes a daytime rota of 1:5 and a night duty rota of 1:8.

Withybush General Hospital	**General Internal Medicine / Haematology**	**Band 2B**
Each morning begins with the haematology consultant ward round, for which the F1 should document the interview with patient, physical examination findings as well as any action and plan. They will also be responsible for executing any changes or investigations. The F1 will have a basic introduction into the management of leukaemia, anaemias and other cancers. This post also covers palliative and geriatric medicine patients, for whom there are wards rounds twice daily. The F1 will manage prominent geriatric conditions such as dementia, delirium, congestive heart failure, and acute kidney injuries, as part of a multidisciplinary team. There is daily teaching during handover. The post also has an educational responsibility for supervising Medical Students allocated to the department. The on-call commitment is a weekend each month in general surgery.

Rotation: FP/093	**Cwm Taf Morgannwg UHB**	
Royal Glamorgan Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
As part of the respiratory medicine team, the F1 will care for patients with a wide variety of acute and chronic conditions in this busy but rewarding job. The team looks after both respiratory and general medical patients. They will be supported by a strong team including IMTs, specialty trainees, and friendly and approachable consultants. The primary responsibility will be to one of the respiratory wards, where the F1 will know the patients and keep their management plans moving forward by working closely with our excellent team of respiratory nurses, pharmacists, physiotherapists, occupational therapists and others. The F1 will look after patients receiving non-invasive ventilation and with chest drains in situ and may have the opportunity to perform some supervised pleural procedures. There will be opportunities to attend specialist meetings including a monthly departmental meeting and weekly lung cancer and x-ray meetings. The F1 will also form part of the general medical on-call rota, where they will have the opportunity to clerk and manage acutely unwell patients at the front-door. Many of our F1s go on to pursue a career in respiratory medicine, including two of our current consultants!

Royal Glamorgan Hospital	**Anaesthetics / Intensive Care Medicine**	**No Banding**
F1s in anaesthetics are effectively supernumerary, but able to take an active part in the functioning of the department. Because anaesthetic work is skills and competency based, the involvement will increase as competencies are achieved. The placement starts with learning basic skills such as peripheral venous access, basic airway management and care of the unconscious patient and progresses through thorough patient assessment and an increased understanding of physiology and pharmacology to the management of a basic anaesthetic (under direct supervision). The emphasis is on learning rather than service provision. In Critical Care, F1s will be part of the routine ward rounds and will conduct patient assessments in addition to working through the tasks of the day. This will involve co-ordinating and requesting investigations, liaising with other specialties, and performing a number of practical procedures, such as insertion of arterial lines, CVCs, urinary catheters, etc. The Royal College of Anaesthetists is promoting the anaesthetist as the peri-operative physician. This starts with detailed pre-op assessment and the F1 will spend 2 full weeks working with staff in the Pre-Assessment Clinic, where there may be an opportunity to conduct a QI project. There is no out-of-hours commitment.

The team looks after both respiratory and general medical patients. They will be supported by a strong team including IMTs, specialty trainees, and friendly and approachable consultants. The primary responsibility will be to one of the respiratory wards, where the F1 will know the patients and keep their management plans moving forward by working closely with our excellent team of respiratory nurses, pharmacists, physiotherapists, occupational therapists and others. The F1 will look after patients receiving non-invasive ventilation and with chest drains in situ, and may have the opportunity to perform some supervised pleural procedures. There will be opportunities to attend specialist meetings including a monthly departmental meeting and weekly lung cancer and x-ray meetings. The F1 will also form part of the general medical on-call rota, where they will have the opportunity to clerk and manage acutely unwell patients at the front-door. Many of our F1s go on to pursue a career in respiratory medicine, including two of our current consultants!

Educational Meetings:		
Royal Glamorgan Hospital **Dewi Sant Hospital**	**General Internal Medicine / Rheumatology**	Banding to be confirmed
The F1 will spend time in the Clinic setting, seeing new and follow-up rheumatology outpatients. They will improve history and examination skills, formulate investigation and management plans and learn to write high quality clinic letters. All decisions are discussed with senior team members. They will also spend time on the wards; rheumatology have joint care with other teams over some patients. The F1 will see these patients alone and with senior team members, and plan and initiate rheumatology investigation and management. They will also attend the Infusion clinic at Dewi Sant Hospital – this clinic is run by the rheumatology nurses. The F1 will help cannulate patients, and to assist in cases of severe reaction to therapy. There are often 1-2 medical students present, giving an opportunity for teaching. The F1 is encouraged to undertake audits and/or complex case reviews, and our Foundation Doctors have been successful in submitting abstracts to national conferences.

Details coming soon...		
Educational Meetings:		
Rotation: FP/100	**Swansea Bay UHB**	

Singleton Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The F1 will look after a range of respiratory and general medical patients. The role typically involves ward rounds, clinics, and other commitments such as SAU and ward cover. They will experience managing common respiratory complaints as well as learning about unusual conditions. This is a busy ward with a large supportive team, and builds confidence with dealing with acutely unwell patients. F1s will have the opportunity to perform pleural procedures (e.g. chest drains), and present at departmental meetings and grand rounds.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric meeting and Medical Case Presentation	
Singleton Hospital	**Acute Internal Medicine / Gastroenterology**	Banding to be confirmed
The F1 will provide ward based care to the gastroenterology patients and have many opportunities for teaching and procedures. The team is approachable and supportive, and the patient group can attend regularly so rapport can be built. There are opportunities to present at Grand Round, and clinically to complete ascitic taps and drains, short synacthen tests and assessment of liver screens and other investigations.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric meeting and Medical Case Presentation	
Morriston Hospital	**General Surgery / Vascular Surgery**	Banding to be confirmed
Vascular Surgery is a busy placement. As it is a tertiary centre for vascular surgery, it is the only surgical team where the team is simultaneously on take and providing ward cover every day. The work is usually split between one consultant on take and one covering the wards with the work supplemented by a number of F1s (depending on on-call commitments). The majority of the work as an F1 is ward based; attending ward round every morning, making appropriate subspecialty referrals and then completing jobs from the ward round. There are a lot of senior surgical staff on team, 2 SHOs and 2 Registrars, and there are always Consultants available in the hospital. The patients are also usually medically unwell due to the comorbidities associated with peripheral arterial disease so it's a good surgical specialty for those interested in medicine.		
Educational Meetings:		

Rotation: FP/101	**Swansea Bay UHB**	
Morriston Hospital	**General Internal Medicine / Cardiology**	Banding to be confirmed
The F1 will take part in daily handover followed by daily ward rounds. Where the cover/workload allows, there is also the opportunity to attend the PCI lab. The on-call commitment is part of the Medical on call rota, with on take in the Emergency Department from 9:00 – 22:00, Ward Cover from 9:00 – 22:00 and post take ward rounds 8:00 – 18:00.		
Educational Meetings:	Daily Ward Rounds Weekly Cariology Teaching

Educational Meetings:		
Morriston Hospital	**General Surgery / Urology**	Banding to be confirmed
The F1 will be based on various general surgical wards. The main duties ward based care, pre- and post-op care, clerking, on-call responsibilities.		
Educational Meetings:		

Rotation: FP/102	**Swansea Bay UHB**	
Morriston Hospital	**General Internal Medicine / Gastroenterology**	**Band 1B**
The F1 will take part in Gastroenterology ward work and medical ward cross cover, as well as clerking in A&E during on calls. There are opportunities to learn about a variety of Gastroenterology patients, including liver patients, and to learn practical procedures, such as inserting NG tube, ascetic taps and drains. The on call commitment includes weekends and days (but no nights).		
Educational Meetings:		
Morriston Hospital	**General Surgery / Upper Gastro-Intestinal Surgery**	Banding to be confirmed
The F1 will take part in the daily management of patients on the ward for pancreatic patients. The on-call commitment is part of the general surgery rota, which provides ward cover for vascular surgery and general surgery, the surgical take (clerking surgical emergency patients) and acting as a "surgical floater" (assisting any surgical team and conducting a COTE round). The on-calls are twilight hours (4pm to 12am).		
Educational Meetings:		
Morriston Hospital	**General Surgery / Urology**	Banding to be confirmed
The F1 will be based on various general surgical wards. The main duties ward based care, pre- and post-op care, clerking, on-call responsibilities.		
Educational Meetings:		

Rotation: FP/103	**Swansea Bay UHB**	
Morriston Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The F1 will take part in consultant led ward rounds a few times per week, and SHO/F1 led ward rounds for the remaining days.		
Educational Meetings:	Daily Ward Rounds	
Morriston Hospital	**General Surgery / Vascular Surgery**	Banding to be confirmed
The F1 will assist the vascular surgical team through organization of inpatient lists, and investigations and procedures. Learning opportunities include daily consultant led ward rounds, attending clinics and assisting in theatres. The F1 will become familiar with arranging interventions in theatre, interventional radiology (angiography), outpatient discharge planning (including appropriate follow ups) and repatriation of patients between Health Boards.		
Educational Meetings:	Daily Ward Rounds	
Morriston Hospital	**General Internal Medicine / Cardiology**	Banding to be confirmed

Morriston Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The F1 will take part in consultant led ward rounds a few times per week, and SHO/F1 led ward rounds for the remaining days.		
Educational Meetings:	Daily Ward Rounds	
Morriston Hospital	**General Surgery**	Banding to be confirmed
The F1 will participate in long days, which will involve clerking acute and elective surgical presentations in the Surgical Decision-Making Unit (SDMU) and in Pembroke (for elective cases). They will also need to prepare patients for potential surgery next day (i.e. "group and save", holding off anticoagulants with long half-lives, checking INRs and potentially reversing any current treatments. The F1 will assist in minor surgeries, such as incision and drainage under supervision. They will be responsible for fast ward rounds and managing medical treatment whilst the team are in surgery, including updating lists and prioritising jobs.		
Educational Meetings:		
Morriston Hospital	**General Internal Medicine / Gastroenterology**	**Band 1B**
The F1 will take part in Gastroenterology ward work and medical ward cross cover, as well as clerking in A&E during on calls. They will be responsible for fast ward rounds and managing medical treatment whilst the team are in surgery, including updating lists and prioritising jobs.		
Educational Meetings:		
Morriston Hospital	**Renal Medicine**	Banding to be confirmed
The F1 will participate and lead ward rounds with renal patients, and identify how to appropriately manage complicated patients with senior support. They will then carry out jobs generated from the ward round and communicate updates of patients to seniors, managing times and job effectively. Consultants provide good senior support and are available to provide teaching and learning opportunities. Additionally, the F1 will partake in general medical on calls, which provide good learning opportunities for a wide range of medical patients including clerking patients in ED or providing general medicine ward cover.		
Educational Meetings:		

Rotation: FP/106	**Swansea Bay UHB**	
Morriston Hospital	**General Internal Medicine / Geriatric Medicine**	Banding to be confirmed
The F1 will take part in ward rounds (on the main ward and outliers) both with consultant/team and alone, undertaking jobs generated from ward round plans, liaising with families, and attending to patients who become acutely unwell. Day to day, the F1 will develop skills, including examination, venesection, blood cultures, cannulation, catheterisation and ABGs. The F1 will take part in the medical on call rota including ward cover, medical on-call in the Emergency department and post-take ward rounds (PTWR).		
Educational Meetings:		
Morriston Hospital	**General Surgery / Vascular Surgery**	Banding to be confirmed
The F1 will assist the vascular surgical team through organization of inpatient lists, and investigations and procedures. Learning opportunities include daily consultant led ward rounds, attending clinics, and assisting in theatres.		
Educational Meetings:		
Morriston Hospital	**Intensive Care Medicine**	**No banding**
The F1 will have the opportunity to learn lots of advanced practical skills as well as physiology application. They will attend a daily handover, and regularly assess patients in the unit and provide basic interventions. More advanced procedures and care will be undertaken under the supervision from seniors.		
Educational Meetings:		

Rotation: FP/107	**Swansea Bay UHB**	
Singleton Hospital	**General Internal Medicine / Gastroenterology**	Banding to be confirmed
The F1 will provide ward based care to the gastroenterology patients and have many opportunities for teaching and procedures. The team is approachable and supportive, and the patient group can attend regularly so rapport can be built. There are opportunities to present at Grand Round, and clinically to complete ascitic taps and drains, short synacthen tests and assessment of liver screens and other investigations.		
Educational Meetings:		
Morriston Hospital	**General Surgery / Colorectal Surgery**	Banding to be confirmed
The F1 role is largely ward based, and includes taking referrals, bloods, imaging, prescribing, and completing patient reviews on a daily basis. They should ensure that the colorectal ward rounds are conducted efficiently each day and with the appropriate seniors, and that any ward jobs are accurately compiles and completed. They will be responsible for ensuring patient details lists are updated, ensure the safety of patients and that any jobs are completed or escalated to senior decision makers. They will be working with large team of juniors across multiple wards and locations - appropriate communication and teamwork with fellow juniors is key. It is expected that the F1 will attend the weekly teaching. The role is split between the colorectal wards and the rota, which consists of the SDMU take and ward cover (days, weekends, twilights or nights).		
Educational Meetings:	Weekly Surgical Teaching	
Morriston Hospital	**Intensive Care Medicine**	Banding to be confirmed
The F1 will have plenty of learning opportunities, including attending arrest calls, and be able to develop their clinical skills, including central lines. The main duties are reviewing patients, presenting to consultants and completing ward jobs for the patients. They will also take part in Microbiology ward rounds.		
Educational Meetings:	Journal Club and MDTs	

Rotation: FP/108	**Swansea Bay UHB**	
Singleton Hospital	**General Internal Medicine / Endocrinology & Diabetes**	Banding to be confirmed
The F1 in Endocrine and Diabetes will look after specialised endocrine patients as well as general medical patients creating a diverse experience. The role involves managing diabetic patients with poor glycaemic control and involves learning about types of insulins and other glycaemic agents. The team is well staffed and supportive. There is the opportunity to attend endocrinology clinics, presenting at Grand Rounds and learning about specialised Diabetes medications.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations	
Morriston Hospital	**General Surgery / Upper Gastro-Intestinal Surgery**	Banding to be confirmed

It is expected that the F1 will attend the weekly teaching.		
Educational Meetings:		
Neath Port Talbot Hospital	**General Psychiatry / Substance Misuse Psychiatry**	Banding to be confirmed
The F1 in general psychiatry and substance misuse will be running their own clinics in the community, liaising with a fantastic and experienced MDT and working on the detox ward where there are a maximum of 2 patients per week. You will be working directly with psychiatrists, nurses, social workers, and substance misuse workers. This can be an emotionally and physically challenging post and can require the F1 to work independently. There is the opportunity to undertake additional research and audit, where time allows.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Medical Case Presentations, Grand Rounds	

Rotation: FP/109	Swansea Bay UHB	LIFT Programme
Singleton Hospital	**General Internal Medicine / Geriatric Medicine**	Banding to be confirmed
The F1 in Care of the Elderly is involved in managing frailty, acute medicine, palliative care, discharge planning, MDT discussion, ICOP (Integrated Care of the Elderly) and have exposure to a variety of acute medical and surgical pathologies. The role involves communicating with patients with dementia, end of life care and can be emotionally challenging. The team is well supported by seniors and there is the opportunity to under Quality Improvement Projects and case presentations.

Rotation: FP/110	**Swansea Bay UHB**	
Singleton Hospital	**General Internal Medicine / Geriatric Medicine**	Banding to be confirmed
The F1 in Care of the Elderly is involved in managing frailty, acute medicine, palliative care, discharge planning, MDT discussion, ICOP (Integrated Care of the Elderly) and have exposure to a variety of acute medical and surgical pathologies. The role involves communicating with patients with dementia, end of life care and can be emotionally challenging. The team is well supported by seniors and there is the opportunity to under Quality Improvement Projects and case presentations.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations	
Morriston Hospital	**General Surgery / Upper Gastro-Intestinal Surgery**	Banding to be confirmed
The F1 role includes management of surgical patients both in the ward setting and the surgical take. On the wards, this will include general patient management and any associated jobs. During the surgical take, there will be management of acute issues on covering wards (during out of hours) and clerking new patients on the Surgical Decision-Making Unit (SDMU).		
Educational Meetings:		
Morriston Hospital	**Otolaryngology**	Banding to be confirmed
This post has a varied work load with a mixture of ward, theatre and on-calls. F1s are not expected to run clinics, but there is the opportunity to attend, and to run SHO clinics under constant supervision. During the on-calls, the F1 will be the first port of call for the ward, GPs and Emergency Department. There are commonly a mixture of emergencies, urgent, semi-urgent and non-urgent referrals (allowing the F1 to become familiar with stridor, epistaxis, otitis externa and quinsy as examples). They will be well supported by other team members, including senior registrars. The F1 is expected to carry out procedures, such as microsuction, nasoendoscopy and quinsy drainage. There are many teaching opportunities, both ward based, and lecture based, and the opportunity to conduct teaching as well.		
Educational Meetings:	Weekly ENT Teaching	

Rotation: FP/111	**Swansea Bay UHB**	
Singleton Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The F1 will look after a range of respiratory and general medical patients. The role typically involves ward rounds, clinics, and other commitments such as SAU and ward cover. They will experience managing common respiratory complaints as well as learning about unusual conditions. This is a busy ward with a large supportive team, and builds confidence with dealing with acutely unwell patients. F1s will have the opportunity to perform pleural procedures (e.g. chest drains), and present at departmental meetings and grand rounds.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations	
Morriston Hospital	**General Surgery / Colorectal Surgery**	Banding to be confirmed
The F1 is responsible for organising the patient list, and ensuring patients have appropriate investigations and post-op care on the wards. During on-calls, they will also clerk new admissions through the Short Stay Surgical Unit (SSSU).		
Educational Meetings:		
Singleton Hospital	**Haematology**	Banding to be confirmed
The F1 in Haematology will work with an amazing team and get a really good understanding of the specialty. They will become confident in blood transfusions, including the transfusion reactions as well as electrolyte abnormalities, taking bone marrow aspirates and dealing with acutely unwell patients. The team are supportive and are keen to teach.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations	

Rotation: FP/112	**Swansea Bay UHB**	
Singleton Hospital	**General Internal Medicine / Stroke Medicine**	Banding to be confirmed
The F1 in stroke medicine will work as part of a close team to manage their patients, who generally require ongoing care and a longer rehabilitation period than other patient groups. There is a focus on teaching, including regular assessment of radiological investigations.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations	
Morriston Hospital	**General Surgery / Colorectal Surgery**	Banding to be confirmed
The F1 role is mostly ward based work; keeping notes up to date and undertaking ward jobs. This is a busy ward and the team work closely together. There is also the opportunity to attend theatre when ward jobs are completed.		
Educational Meetings:		
Singleton Hospital	**Endocrinology & Diabetes**	Banding to be confirmed
The F1 in Endocrine and Diabetes will look after specialised endocrine patients as well as general medical patients creating a diverse experience. The role involves managing diabetic patients with poor glycaemic control and involves learning about types of insulins and other glycaemic agents. The team is well staffed and supportive. There is the opportunity to attend endocrinology clinics, presenting at Grand Rounds and learning about specialised Diabetes medications.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations

Educational Meetings:		

Rotation: FP/114	Aneurin Bevan UHB	LIFT Programme
The Grange University Hospital	**General Internal Medicine / Cardiology**	Banding to be confirmed
This post is one of the 16 junior doctor posts on our busy but friendly cardiology team led by 14 consultants. The F1 responsibilities include cover for the 24 bedded cardiology ward as well as gaining level 2 experience from the 17 bed Acute Cardiac Unit. The hospital has 2 catheter labs and a pacing theatre. Procedures including angiography, complex pacing, angioplasty, TOE, DSE and emergency pacing all take place on site providing a wide range of experience in Cardiology. Our teaching and support to the junior team gets consistently good feedback and we are very proud of the training we provide. There is also the opportunity to attend the Cardiothoracic MDT, ECHO and/or Rhythm meetings if of interest. The F1 will gain plenty of GIM experience whilst participating in the unselected medical take at GUH, well supported by the senior tiers of doctors		
Educational Meetings:	Weekly Grand Round, F1 Teaching, Cardiology Junior Doctors Meeting	
The Grange University Hospital **Royal Gwent Hospital**	**General Surgery / Upper Gastro-Intestinal Surgery**	**Band 1B**
Emergency and elective general surgery (including GI) across two sites. All emergency work and majority of the F1 placement will be based in Grange University Hospital, with some weeks (4 out of 20) based in the Royal Gwent Hospital to gain experience of elective work and peri-operative care. GUH work will include well supervised and supported assessment and initial management of emergency patients on the Surgical Assessment Unit and ongoing ward-based care of emergency patients, within one of the upper GI and colorectal teams. RGW weeks will comprise peri-operative care of elective patients and those "stepped-down" from GUH. Experience will include assessment and management of acutely unwell and multi-morbid patients, peri-operative and end-of-life care. The on-call commitment is a 20-week rolling rota comprising of 1:10 nights (either GUH or RGW), 1:10 weekend days (GUH), 3 weeks of daytime shifts (RGW) and remainder at GUH.		
Educational Meetings:	Weekly F1 Teaching	
Royal Gwent Hospital	**General Internal Medicine / Geriatric Medicine**	**Band 1A**
The F1s main duties comprises of organising ward rounds, reviewing patients, reviewing investigations and managing the patients. It is duty of all doctors in the ward to liaise with patient's families. The F1 will achieve competency in Comprehensive Geriatric assessment and will gather experience in leading Multidisciplinary team meetings. They will be well supported by the team including Internal medicine trainees, a middle grade doctor and Consultant. They will be encouraged to participate in a Quality improvement project.		
Educational Meetings:	Weekly F1 Teaching, MDT Meetings, Departmental Teaching and Grand Rounds Ward Based Teaching	
General Practice LIFT		
The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/114a, FP/114b and FP/114c are linked to Gaer Medical Practice, which is walking distance from RGW.		

Rotation: FP/115	Hywel Dda UHB	LIFT Programme
Glangwili General Hospital **Prince Philip Hospital**	**Urology**	**No Banding**
The F1 role consists of ward rounds and presentation of new admissions, clerking of acute and elective cases, writing discharge summary letters and day to day ward work. Daily ward rounds give excellent opportunity to see acute urological admissions, present new cases to senior colleagues, review scans, ask questions and learn about investigations and treatment of urological cases. There is also the opportunity to attend Urology CNS led clinics and theatre or day surgery units. *Due to Covid, there may be the ongoing requirement for F1s who are based at GGH to undertake duties at PPH.*		
Educational Meetings:	Weekly F1 Teaching, and MDT Discussions	
Glangwili General Hospital	**General Internal Medicine / Respiratory Medicine**	**Band 1B**
The team, consisting of 4 consultants, 2 SpRs, a Specialty Doctor, a Clinical Fellow, an Internal Medicine Trainee, an F2 and F1, are responsible for the daily care across a 19 bedded respiratory ward and up to 5 outlying patients. The F1 is expected to attend and contribute to 2 consultant and one middle grade ward rounds per week. The role also includes clerking and assessing new patients on the ward, the daily review of patients, mini-clerking and preparation of day cases (e.g. for pleural clinic, CT guided biopsies and thoracoscopy), involvement in weekly thoracoscopy list in rotation with other junior doctors. There are opportunities to learn pleural aspiration, USS, Intercostal drain insertion and many other specialties techniques from the team and specialist respiratory nurses. The on-call commitment is 1:22 on the acute unselected medical take.		
Educational Meetings:	Weekly F1 Teaching, Departmental Teaching, Respiratory Medicine Teaching	
Glangwili General Hospital **Local Clinics in Carmarthen/Llanelli**	**Community Sexual & Reproductive Health**	**No Banding**
This post follows a 'life-course' model of health that does not only cover the provision of contraception and the prevention and treatment of sexually transmitted infections, but it includes supporting sexual well-being, no matter an individual's background or sexual orientation, and includes the planning of families. There is also a telephone triage system and video consultation system. The F1 will have an opportunity to shadow within a variety of clinics (ie. contraception, sexual health, psycho-sexual, abortion services) both face-to-face and using VC/telephone, developing the key skills in sexual history taking and examination. There is designated educational opportunities time each week (clinics are closed for the afternoon). The F1 will aid services at multiple clinics across Carmarthenshire and Llanelli each week (up to a 35 minute commute by car from GGH, with infrequent public transport), and can also attend clinics in Ceredigion and Pembrokeshire if interested.		
Educational Meetings:	Weekly F1 Teaching, and Departmental Tutorials timetable	
General Practice LIFT		
The F1 will have clinical experience, participating in various forms of health care provision and patient contact, from telephone to face-to-face consultations. They will also monitor / follow up on patients and learn about managing patients. FP/115a is linked to Llanfair Surgery, which is a 40 minute drive from GGH, with no public transport links. FP/115b does not have a GP LIFT allocation for FP2022, and so will be replaced with a Palliative Medicine LIFT at GGH. FP/115c is linked to Meddygfa Teilo, which is a 25 minute drive from GGH, with infrequent public transport.

General Practice LIFT		
The post incudes a one day per week longitudinal placement in General Practice. The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact, from telephone to face to face consultations. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/117a is linked to Penygraig Surgery, which is a 20 minute drive from Royal Glamorgan Hospital., with infrequent public transport. FP/117b is linked to St Andrews Surgery, which is a 20 minute drive from Royal Glamorgan Hospital, with infrequent public transport. FP/117c is linked to Ferndale Maerdy Group Practices, which are a 30-40 minute drive from Royal Glamorgan Hospital and not accessible by public transport.		

Rotation: FP/118	Betsi Cadwaladr UHB	LIFT Programme
Wrexham Maelor Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The 9am to 5pm day usually consists of a consultant/registrar-led ward round and general ward work. Most teams have their own wards. All medicine posts include an on-call commitment, usually on the general medical rota, which will include long days (1:6), two weekends and a block of nights (7 nights over 2 weeks) during the 4 month placement. During on-calls, the F1 will be responsible for clerking new admissions to the Medical Assessment Unit/A&E or ward work (on weekends).		
Educational Meetings:		
Wrexham Maelor Hospital	**General Surgery / Colorectal Surgery**	Banding to be confirmed
The 8am to 5pm days consist of ward rounds, attending clinics, assisting in theatre or using spare time for self-directed study. The F1 may be included on the arrival's rota, which requires undertaking blood tests and writing drug charts for elective surgical admissions. The on-call commitment includes long days (8am to 6pm), evenings (4.30pm to 11pm) and two weekends during the 4-month placement, but no night shifts. During on-calls, the F1 is responsible for clerking GP admissions to the Surgical Assessment Unit and carrying out ward jobs that have been handed over.		
Educational Meetings:		
Wrexham Maelor Hospital	**Paediatrics**	Banding to be confirmed
This post offers a wide diversity of hands on experience in a busy department. The team are supportive and allow the F1 plenty of opportunity to develop their own practice. There is protected teaching time, allocated teaching slots and simulation teaching in the department.		
Educational Meetings:		
General Practice LIFT		
The post incudes a one day per week longitudinal placement in General Practice. The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact, from telephone to face to face consultations. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/118a and FP/118b are linked to Bryn Darland Surgery, which is a 10 minute drive or 20 minutes via public transport from Wrexham Maelor Hospital. FP/118c is linked to Chirk Surgery, which is a roughly 20 minutes drive from Wrexham Maelor Hospital, with no public transport links.		

Rotation: FP/119	Swansea Bay UHB	LIFT Programme
Singleton Hospital	**General Internal Medicine / Geriatric Medicine**	Banding to be confirmed
The F1 in Care of the Elderly is involved in managing frailty, acute medicine, palliative care, discharge planning, MDT discussion, ICOP (Integrated Care of the Elderly) and have exposure to a variety of acute medical and surgical pathologies. The role involves communicating with patients with dementia, end of life care and can be emotionally challenging. The team is well supported by seniors and there is the opportunity to under Quality Improvement Projects and case presentations.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations

Educational Meetings:		
Singleton Hospital	**General Internal Medicine / Respiratory Medicine**	Banding to be confirmed
The F1 will look after a range of respiratory and general medical patients. The role typically involves ward rounds, clinics, and other commitments such as SAU and ward cover. They will experience managing common respiratory complaints as well as learning about unusual conditions. This is a busy ward with a large supportive team, and builds confidence with dealing with acutely unwell patients. F1s will have the opportunity to perform pleural procedures (e.g. chest drains), and present at departmental meetings and grand rounds.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations	
General Practice LIFT		
The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact, from telephone to face to face consultations. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/119a is linked to The Grove Medical Centre, which is walking distance from Singleton Hospital. FP/119b is linked to Pengorof Surgery, which is roughly a 20-35 minute drive from Morriston/ Singleton respectively, with no public transport. FP/119c is linked to Gower Medical Practice, which is a 15 minute drive from Singleton with infrequent public transport.		

Rotation: FP/120	Cardiff & Vale UHB	LIFT Programme
University Hospital of Wales **University Hospital Llandough**	**General Internal Medicine / Respiratory Medicine**	**Band 2B**
The role includes the inpatient care of a broad range of respiratory and general medicine cases. Particular experience in managing non-invasive ventilation can be obtained in the ward based acute NIV Unit in addition to ITU stepdown patients; including patients with tracheostomies. There is good opportunity to gain experience in undertaking pleural procedures, such as pleural aspiration under USS guidance, and potentially chest drain insertion. The on-call commitment is currently at UHL, with supervision by the acute and on-call physicians.		
Educational Meetings:	Weekly Departmental Teaching, and sessions on Medicine, Respiratory & Radiology Weekly Grand Rounds and Monthly F1 Teaching	
University Hospital of Wales	**General Surgery / Hepato-Pancreatico-Biliary Surgery**	**Band 2B**
This post is in the Cardiff Liver Unit which provides tertiary care to patients with liver surgical problems. There will be a mixture of general and Hepatopancreatobiliary patients in the ward, as all the consultants do general surgical take. We have arrangements in the General surgery directorate to get additional help from other F1s as needed. On-call is part of the general surgical rota.		
Educational Meetings:	Weekly Teaching Ward Rounds and UHW Grand Rounds Monthly General Surgery Quality & Safety Meeting, and F1 Teaching	
University Hospital of Wales	**Emergency Medicine**	**No Banding (5% Supplement)**
The Emergency Unit experience includes the whole breadth of adult and paediatric patients presenting from relatively minor injuries to critically unwell after major trauma. We also see the medically unwell and those suffering mental illness. The environment promotes judicious use of diagnostic acumen and investigations. Procedural skills such as joint reduction can be learnt and with direct consultant supervision, leadership of cardiac arrest and trauma teams can be practiced.		
Educational Meetings:	Daily Teaching, and Weekly UHW Grand Round Monthly F1 Teaching, Departmental Teaching and Quality & Safety Meetings	
General Practice LIFT		
The post incudes a one day per week longitudinal placement in General Practice. The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact, from telephone to face to face consultations. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/120a and FP/120b are linked to Dinas Powys Medical Centre, which is walking distance from UHL. FP/120c is linked to Roath House Surgery, which is walking distance from UHW.

Rotation: FP/123	Hywel Dda UHB	LIFT Programme
Prince Philip Hospital	**Emergency Medicine / Minor Injury Unit**	**Band 1B**
The F1 would work in the GP led Minor Injury Unit. The MIU (formerly an A&E) work closely with community and hospital teams seeing predominantly walk-in patients with a wide range of concerns. This post enables the F1 to learn more about the relationship between primary and secondary care. One day a week will be dedicated to clinical skills and simulation training for medical students at the hospital. The F1 will work as part of the twilight medical rota (1:8).		
Educational Meetings:	Twice Weekly Ward Rounds Weekly F1 Teaching, Grand Rounds and Departmental Teaching	
Prince Philip Hospital	**General Internal Medicine / Geriatric Medicine**	Band 1B
The F1 will be part of a 4 person team but will also work closely with the Geriatric department. They will treat mainly unselected emergency medical intake with continuing care of the majority of patients seen, and cover the acute medical, acute stroke and rehabilitation inpatients. The post will develop basic skills such as history taking, examination, bedside practical procedures and management of complex and frailty cases with a special interest in stroke medicine. The F1 will work closely with the multi-disciplinary team, and have opportunities to undertake QI projects, student teaching and other educational activities. The on-call rota is 1:8.		
Educational Meetings:	Daily Ward Rounds Weekly F1 Teaching, Grand Round, Medicine and Departmental Meetings Whole Hospital Audit Meetings	
Prince Philip Hospital	**General Internal Medicine / Gastroenterology**	Band 1B
The F1 will have exposure to and be involved in the active management of a wide range of luminal and hepatology related conditions that are seen as an in-patient, including complex inflammatory bowel disease, Decompensated liver disease, Gastrointestinal malignancies and advanced nutritional related pathologies. They will benefit from regular consultant ward rounds and bed side teaching, and are encouraged to seek out educational opportunities (e.g. attending outpatients). Specialist clinics run regularly including complex IBD, Liver disease comprising of viral hepatitis and post liver transplant follow up alongside general gastroenterology referrals. There is also an opportunity to attend the endoscopy department to observe both Upper and lower Gastrointestinal endoscopy, and to complete the attachment being competent in performing abdominal paracentesis. The on-call commitment (1:8) is on the general medical rota, where the F1 will see patients admitted to the Acute Medical Assessment Unit as part of the Medical Emergency Team as well as attending acute stroke thrombolysis calls.		
Educational Meetings:	Weekly F1 Teaching and Medicine Meeting Whole Hospital Audit Meetings	
Prince Philip Hospital	**Same Day Emergency Care LIFT**	
The SDEC is a new initiative within the hospital and a bridge between primary, unscheduled and secondary care. The F1 would work between the clinical skills/simulation centre in PPH and the Same Day Emergency Care (SDEC) unit and support the lead for clinical skills and the lead for SDEC respectively. General duties include clerking of patients, routine clinical procedures and formulating management plans/follow ups with consultants. They would build on pre-existing education skills facilitating teaching of medical students and have the opportunity to complete a project of their choosing within either SDEC or the teaching arena.

Prince Philip Hospital **Glangwili General Hospital**	**General Surgery / Breast Surgery**	**Band 1B**
The F1 will be working in the breast unit. This will comprise of patients being admitted for elective breast surgery, and most of the procedures will be for diagnosed Breast Cancer patients with a minority being related to cosmesis and benign conditions. The F1 will be expected attend the Ward Round each morning. They will be involved in pre-assessing patients prior to the surgical procedure and be expected to attend theatre to assist in the basic resection breast surgical procedures. They will also attend clinics in which new patients are assessed. They are expected to present in at least 2 journal clubs and complete one audit during this placement. There will be no on-call commitments related to breast surgery, however the medical on-call rota is 1:7.		
Educational Meetings:	Weekly F1 Teaching, Medicine Meeting, Grand Round and Academic Meetings Whole Hospital Audit Meetings	
Prince Philip Hospital	**General Internal Medicine / Cardiology**	**Band 1B**
The F1 will attend 4 consultant led ward rounds per week and 1 middle grade ward round. The patient mix is predominantly cardiology and general internal medicine. The team looks after a total of 26 patients on the general cardiology ward but are also involved in the care of 4 patients on the Critical Care Unit. Foundation Doctors currently attend a daily ward round in the new ACS "treat and repatriate" bay catering for acute cardiac patients awaiting invasive management at Morriston Hospital (a very valuable teaching opportunity). The F1 will carry out daily tasks such as core bedside procedures, completing electronic medication take homes and discharge summaries, and are encouraged to regularly present and discuss cases in the twice weekly teaching rounds. They are encouraged to attend cardiology clinics, and non-invasive/invasive cardiac investigation lists. The on-call commitment is 1:20, with a mix of responsibilities between clerking patients through the acute medical admissions unit for a largely unselected medical take to providing general ward cover.		
Educational Meetings:	Weekly F1 Teaching, Medicine Meeting, Grand Round and Departmental Teaching Whole Hospital Audit Meetings	
Prince Philip Hospital	**General Internal Medicine / Endocrinology & Diabetes**	Band 1B
Each day starts with a Ward Round, comprising all team members and is followed by ward work / chasing results and reviewing patients. The F1 will ensure that urgent test results are handed over to the evening team. There is opportunity to undertake Audit and Quality Improvement Projects in addition to Journal Club participation. F1s will also have opportunity to attend Diabetes and Endocrine clinics and to help with clinical skills training of junior staff members, nursing and medical students. The on-call rota is 1:20.		
Educational Meetings:	Weekly F1 Teaching, Medicine Meeting and Grand Round Whole Hospital Audit Meetings	
General Practice LIFT		
The F1 will have clinical experience, supervised by a GP and participating in various forms of health care provision and patient contact, from telephone to face to face consultations. They will also monitor / follow up on patients and learn about managing patients in primary care. FP/132a is linked to Llwynhendy Health Centre, which is walking distance from PPH. FP/132b is linked to Meddygfa Tywyn Bach, which is 1 hour by bus or a 25 minute drive from PPH FP/132c does not have a GP LIFT allocation for FP2022, and so will be replaced with a General Practice (SDEC) LIFT at PPH.		

Rotation: FP/133	Swansea Bay UHB	LIFT Programme
Singleton Hospital	**General Internal Medicine / Endocrinology & Diabetes**	Banding to be confirmed
The F1 in Endocrine and Diabetes will look after specialised endocrine patients as well as general medical patients creating a diverse experience. The role involves managing diabetic patients with poor glycaemic control and involves learning about types of insulins and other glycaemic agents. The team is well staffed and supportive. There is the opportunity to attend endocrinology clinics, presenting at Grand Rounds and learning about specialised Diabetes medications.		
Educational Meetings:	Weekly F1 Teaching, Journal Club, Geriatric Meeting and Medical Case Presentations

The Grange University Hospital	**General Internal Medicine / Cardiology**	Banding to be confirmed
This post is one of the 16 junior doctor posts on our busy but friendly cardiology team led by 14 consultants. The F1 responsibilities include cover for the 24 bedded cardiology ward as well as gaining level 2 experience from the 17 bed Acute Cardiac Unit. The hospital has 2 catheter labs and a pacing theatre. Procedures including angiography, complex pacing, angioplasty, TOE, DSE and emergency pacing all take place on site providing a wide range of experience in Cardiology. Our teaching and support to the junior team gets consistently good feedback and we are very proud of the training we provide. There is also the opportunity to attend the Cardiothoracic MDT, ECHO and/or Rhythm meetings if of interest.		
Educational Meetings:	Weekly Grand Round, F1 Teaching, Cardiology Junior Doctors Meeting	
The Grange University Hospital **Royal Gwent Hospital**	**General Surgery**	**Band 1B**
Emergency and elective general surgery (including GI and vascular) across two sites. All emergency work and majority of the F1 placement will be based in Grange University Hospital, with some weeks (4 out of 20) based in the Royal Gwent Hospital to gain experience of elective work and peri-operative care. GUH work will include well supervised and supported assessment and initial management of emergency patients on the Surgical Assessment Unit and ongoing ward-based care of emergency patients, within one of the upper GI, colorectal or vascular teams. RGW weeks will comprise peri-operative care of elective patients and those "stepped-down" from GUH. Experience will include assessment and management of acutely unwell and multi-morbid patients, peri-operative and end-of-life care. The on-call commitment is a 20-week rolling rota comprising of 1:10 nights (either GUH or RGW), 1:10 weekend days (GUH), 3 weeks of daytime shifts (RGW) and remainder at GUH.		
Educational Meetings:	Weekly F1 Teaching	
Nevill Hall Hospital **Royal Gwent Hospital** **The Grange University Hospital** **Ysbyty Ystrad Fawr**	**Palliative Medicine LIFT**	
Details coming soon… This LIFT placement also requires the F1 to visit the Hospice of the Valleys, which is a 30-45 minute drive from GUH/RGW.
