

Exciting opportunity for a Post-Registration Foundation Pharmacist in Wales.

Tynewydd Pharmacy is an independently owned prescribing pharmacy in a lovely Rhondda valley community.

Due to a late withdrawal from the programme, we now have an opportunity for a motivated and clinically focussed individual to join us and work through the HEIW Post-Registration Foundation programme culminating in IP qualification.

Providing many clinical services, it is an excellent opportunity for a successful candidate to develop their skills and clinical knowledge with the support of an experienced prescriber and Designated Prescribing Practitioner.

There will be opportunities to work and learn with a number of dedicated and experienced prescribers, as well as current and former post-registration foundation pharmacists, across other independent prescribing pharmacies.

Learn about collaboration, leadership and mentorship working alongside experienced prescribers and pharmacy owners, tutors and supervisors, Collaborative Leads and Board Members of pharmacy organisations.

Please DM for more details or email tynewyddpharmacy@gmail.com.
