Looking Forward 'INNOVATION IN CHALLENGING TIMES'

Free virtual conference, 27 November 2020

Open to all medical trainers, trainees and those with an interest in quality improvement.

The extraordinary events of 2020 have impacted our usual development and community of practice events including STEME and QISTMas.

There has however, been much innovation and new ways of working, learning and training that we can look forward to incorporating into our usual activity. Challenges have necessitated new ways of thinking and delivering, and we would like to share some of this with you.

Join us to:

-  **hear how training is adapting and changing in response to COVID-19**
-  **learn about innovating in challenging times**
-  **look forward to new and different ways of training.**

The event includes an opportunity to present your innovation as a poster.

CPD accreditation has been applied for from the RCP.
