# SWANSEA BAY UHB FOUNDATION PROGRAMME

# WELCOME TO SWANSEA BAY

**Rhossili Bay**  
Gower Peninsula

*Caring for each other*  
*Working together*  
*Always improving*

## Our Values

**Caring for each other** – in every human contact in all of our communities and each of our hospitals.

**Working together** – as patients, families, carers, staff and communities so that we always put patients first.

**Always improving** – so that we are at our best for every patient and for each other.

# OUR SITES

Cefn Coed Hospital

Neath Port Talbot Hospital

Morriston Hospital

Singleton Hospital

# MEET THE FOUNDATION TEAM

**Dr Rhodri Edwards**

Foundation Programme  
Director

TBC

**Dr Ritu Nirula**

Foundation Programme  
Director

I have been SBUHB Foundation Programme Director since Summer 2022. I am a GP partner in the city centre of Swansea and also GP Foundation Programme Director for the Wales Foundation School, specifically focusing on delivering Foundation Training through General Practice posts.

**Bethany Jones**

Foundation  
Programme Admin

Hi! My name is Bethany and I am the postgraduate supervisor and Foundation Programme Admin for Swansea Bay. I have worked in the health board for just over five years, two and a half of them being within postgrad.

# LOCAL ATTRACTIONS

## **Mumbles Pier** Mumbles

Mumbles Pier Pier Road, Swansea SA3 4EN

Why not enjoy an ice cream from Swansea infamous ice cream parlour, Joe's Ice Cream on your walk along the promenade down to the pier. Don't forget to take your spare change as there is also an arcade by the pier!

## **Swansea Marina** City Centre

Plymouth Street, Swansea SA1 3QG

Just behind Swansea beachfront you will find the marina which is home to over 350 boats! There are plenty of bars and pubs around the Marina in case you find yourself thirsty. There is also the Waterfront Museum which explores the history and culture of Swansea. A bonus that its free entry!

## **Three Cliffs Bay** Gower Peninsula

North Hill Farm North Hills Lane, Swansea SA3 2HB

Three cliffs is a fabulous beach on the south coast of the Gower peninsular There is a spectacular shoreline of sand dunes, salt marsh and of course, the signature three limestone cliffs

# THINGS TO DO

## **Wind Street** City Centre

Wind Street, Swansea, Wales, SA1 1DP

If you are looking for nightlife, Wind Street is the place you will need to go. Packed full of bars and nightclubs all on one street! There is a wide variety of places to party which range from live bands, R&B and dance music.

## **Oystermouth Castle** Mumbles

Castle Avenue, Swansea SA3 4

Oystermouth Castle sits majestically on the hill in Mumbles with stunning views overlooking Swansea Bay. You are able to enter the castle to view and have a guided tour!

## **Swansea Museum** City Centre

Swansea Museum is the oldest museum in Wales, and a fascinating treasure house of Swansea's history. The collections contain all kinds of objects from the past of Swansea, Wales and the rest of the world., even an egyptian mummy!

# HOSPITAL ACCOMMODATION & FACILITIES

## **Accommodation:**

Foundation Year 1 trainees will get 1 year free onsite hospital accommodation. There is onsite accommodation at all of our sites.

## **The Mess:**

The Morrison Hospital Mess has a large room (with access via keypad code which is to be sent monthly to mess members only). It has sofas, computer access, microwave, TV with sky, etc. .Food and snacks are available in the mess for members. Also there are regular socials, including pay day parties!

## **Libraries:**

There are 4 NHS libraries at Cefn Coed, Morrison, Neath Port Talbot and Singleton Hospitals. They all offer comfortable, quiet spaces to study, with Eduroam & BT Wi-Fi at all sites. You can also use the computers on the NHS network.

Your membership will allow you to borrow books, and request books and papers from other collections. The NHS libraries have a wide range of clinical online journals, databases and online resources.

The libraries can be accessed 24 hours a day, all year round with an Out of Hours Card. The card is available for a £10 deposit which you get back when you return it at the end of the Programme.

## **Canteen and Restaurants:**

There are canteens on each of the sites along with a coffee shop. On the Morrison site there is also a Subway, Costa and WHSmith.

## **Parking:**

There is free staff parking available on each of our sites. Staff members must apply for a Swansea Bay parking permit where it will allow you to park across sites.

## **Chapel:**

The Chaplaincy Team is available across the whole of Swansea Bay University Health Board. We have Catholic, Muslim and Christian chaplains. We also have connections to religious leaders of other faiths, if requested.

"The Chaplains are available for a friendly chat- just drop into one of our offices for a cup of coffee and a chance to share concerns and to have some independent support. No religion necessary!"

# PAIRED ROTATIONS

The foundation programme in Swansea Bay is a paired programme. For more information please visit the HEIW website.

These are subject to change.

For information on the specific specialties, please see placement descriptors at the end of the booklet

# LIFT (LONGITUDINAL INTEGRATED FOUNDATION TRAINING)

It is expected that all new F1 rotations will have a LIFT element. This is an additional placement to the usual 3x 4 month placements that takes place 1 day per week across the whole year. Ideally, this should be the same specialty for all three posts within the rotation, however these can be timetabled on different days if preferred.

FL1/7A3/119a	GP LIFT
FL1/7A3/119b	GP LIFT
FL1/7A3/119c	GP LIFT
FL1/7A3/133a	Neurology
FL1/7A3/133b	Palliative Care
FL1/7A3/133c	Renal
FL1/7A3/134a	GP LIFT
FL1/7A3/134b	GP LIFT
/134c	GP LIFT
FL1/7A3/109a	Haematology
FL1/7A3/109b	Histopathology
FL1/7A3/109c	Microbiology

## ACADEMIC POSTS

Trainees who have a academic element of their rotation will have one protected day a week per week to carry out academic tasks e.g. researching, preparing teaching sessions and presenting abstracts. In Diabetes all trainees have published papers, abstracts and 7 have completed a Certificate/Diploma in Medical Education.

### ACADEMIC ROTATIONS

**FP23/003** – General Surgery, Professor Al-Sarireh/ Diabetes and Endocrine, Professor Jeffrey Stephens/ Burns & Plastics, Professor Iain Whitaker

**FP23/007** – Ambulatory Care, Dr Stephen Greenfield/ Haematology, Dr Ann Benton/ Diabetes and Endocrine, Dr Rajesh Peter

# Supervisor Testimonials

If you apply for foundation training in Swansea Bay, you can rest assured of excellent pastoral support. In addition to clinical and educational supervisors, you will have local foundation programme directors(FPD)who can be contacted directly for any form of support. In my four years as an FPD at Swansea Bay, I have worked with some excellent foundation doctors who enjoyed the clinical challenges and had access to fantastic support services. This included career advice, taster week facilitation, and professional support unit liaison. We would love to have you work with us here in Swansea Bay.

**Dr Pramodh Vallabhaneni, Paediatric Consultant & Supervisor**

The Emergency Department at Morriston Hospital is a very busy department. It is often overcrowded, under-staffed and under extreme pressure due to lack of patient flow into the main hospital. As a result, staff must be conscientious and flexible in their working pattern. That said, the positives of Morriston ED far outweigh the challenges. We have a highly supportive TEAM, the latter in capitals because the best part of Morriston ED is the team.

Foundation trainees are provided with 3 hours of protected relevant acute education each week. In addition they have protected time to attend hospital F1 and F2 education. We also run a weekly 'FIESTA' MDT education session and if the trainees rota permits they are welcome to attend. There are also USS, QIP, audit, sports medicine and trauma experts in the ED who can offer support.

All trainees are allocated to a supervisor. All supervisors take their role seriously and have an open door policy, however any trainee can seek support and educational opportunities from any of the supervisors or senior team. The vast majority of trainees find their placement in ED to be clinically and professionally highly rewarding.

**Dr Sue West Jones, ED Consultant & Supervisor**

Being an Educational Supervisor for Foundation trainees has been a privilege. From our first ever Foundation Trainee on ICU in 2005, who arrived like a rabbit caught in the headlights to the present day, each trainee comes with different expectations and needs. Each trainee teaches me something new. The approach I take is to sit down away from the clinical area with trainees and go through, on an individual basis the nature of the work and what is expected of them. I get to know a little of their background, any concerns, aspirations for the future and endeavour to guide and assist them in achieving their goals. One of the biggest changes in the last 2 years, has been to be the ES for your first trainees throughout their first year. This has been a positive opportunity to keep in touch with trainees during their formative first year. The power of taking time, having a coffee and listening cannot be underestimated. Life happens to us all and it is not always kind. Work can be a constant and provide friendship and structure, but it can also be challenging. While there are structured training programmes and regular teaching, the importance of mentorship cannot be underestimated. It is the part of my role that I enjoy the most

**Dr Linda Middleton, ITU Consultant & Supervisor**

# Trainee Testimonials

I have spent my Foundation Training at SBUHB: having done three general medical, one general surgical, and one emergency medical post at Morriston Hospital; as well as one OP psychiatry post at Tonna Hospital. I truly have felt my confidence and competence as a doctor in terms of medical knowledge and practical procedures have improved due to the combination of working across a variety of medical specialties, the nature of the job, and the teaching offered by the foundation school and departmental staff. There was also plenty of opportunity to strengthen my portfolio outside of clinical work, including conducting teaches for medical students at Swansea University.

The foundation school, including the Foundation Programme Directors, is welcoming of feedback regarding training, and staff will always be happy to address any concerns. There are wellbeing services available, including the Professional Support Unit, that I highly encourage trainees to self-refer should the need arises.

Finally, I hope everyone will be able to enjoy their foundation training at SBUHB and I wish everyone all the best!

- Ray Tse, CT1 Psychiatry

Working as a trainee in Swansea University Health Board gave me many learning opportunities, challenges to grow and develop as a foundation doctor.

With regular support from supervisors, I gained essential experience for my learning and professional development in varied clinical placements.

With a fantastic scenic location and access to beaches, it is a lovely place to practice medicine

- Anya Slowinsk, Clinical Fellow, Medicine

Placement	General Surgery: Upper GI, HPB, Colorectal
The Department	General Surgery Morriston
The type of work to expect and learning opportunities	<ul style="list-style-type: none"> <li>• Daily ward rounds with your surgical team and carrying out the jobs generated by the ward round.</li> <li>• Opportunities to scrub in and assist in theatre.</li> <li>• Procedural skills e.g., suturing, NG tubes, catheters.</li> </ul>
